**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

FOR THE THREE MONTHS ENDED MARCH 31, 2017

MAY 10, 2017

INTERPRETATION

The current and prior-period comparative results for the Terra Firma Capital Corporation (the “Company”) reflect the consolidation of the Company and its interests in certain joint operations and portfolio investments in its wholly owned subsidiaries which are controlled by the Company. Unless the context otherwise requires, all references in this MD&A to the “Company” refer to Terra Firma Capital Corporation and its subsidiaries.

The Company’s unaudited condensed consolidated interim financial statements for the three months ended March 31, 2017 have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34). The Company’s presentation currency is the Canadian dollar.

The following Management’s Discussion and Analysis (the MD&A”) of the financial condition, and results of operations of the Company dated May 10, 2017 for the three months ended March 31, 2016 should be read in conjunction with the Company’s unaudited condensed consolidated interim financial statements and accompanying notes for the same period as well as the Company’s annual MD&A for the year ended December 31, 2016 and audited consolidated financial statements for the same period. These documents are available under the Company’s profile on the System for Electronic Document Analysis and Retrieval (“SEDAR”) at WWW.SEDAR.COM.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this MD&A constitute forward-looking information within the meaning of Canadian securities laws (“forward-looking statements”). Forward-looking statements are provided for the purposes of assisting the reader in understanding the Company’s financial performance, financial condition and cash flows as at and for the periods ended on certain dates and to present information about management’s current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Forward-looking statements in this document include, but are not limited to, statements with respect to market opportunities for the identification and funding of loans, the provision to the Company of a consistent flow of quality investment opportunities, and with respect to the settlement agreement discussed under “[Subsequent Events]”, as well as other statements under the heading “Future Outlook”, and may relate to future results, performance, achievements, events, prospects or opportunities for the Company or the real estate industry and may include statements regarding the financial position, business strategy, financial results, real estate values, interest rates, loan to cost, plans and objectives of or involving the Company. In some cases, forward-looking statements can be identified by such terms such as “may”, “might”, “will”, “could”, “should”, “would”, “occur”, “expect”, “plan”, “anticipate”, “believe”, “intend”, “seek”, “aim”, “estimate”, “target”, “project”, “predict”, “forecast”, “potential”, “continue”, “likely”, “schedule”, or the negative thereof or other similar expressions concerning matters that are not historical facts.

Forward-looking statements necessarily involve known and unknown risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Company’s control, affect the lending operations, performance and results of the Company and its business, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to, the risks discussed in the Company’s materials filed with Canadian securities regulatory authorities from time to time, including the risks discussed herein at “Risks and Uncertainties”. The reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements as there can be no assurance that actual results will be consistent with such forward-looking statements.

Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management’s perceptions of historical trends, current conditions and expected future developments, as well as other considerations that are believed to be appropriate in the circumstances, including the following: the Canadian economy will remain stable over the next 12 months; inflation will remain relatively low; interest rates will remain stable; conditions within the real estate industry will be consistent with the current climate; and the considerations referenced above, collectively, will not have a material impact on the Company. While management considers these assumptions to be reasonable based on currently available information, they may prove to be incorrect.

This is not an exhaustive list of the factors that may affect any of the Company's forward-looking statements. Some of these and other factors are discussed in more detail in the Company's Annual Information Form (the "AIF") dated March 29, 2017. Investors and others should carefully consider these and other factors and not place undue reliance on the forward-looking statements. Further information regarding these and other risk factors is included in the Company's public filings with Canadian provincial securities regulatory authorities (including the Company's AIF) and can be found under the Company's profile at www.sedar.com. The forward-looking statements contained in this MD&A represent the Company's views only as of the date hereof. Forward-looking statements contained in this MD&A are based on management's current plans, estimates, projections, beliefs and opinions and the assumptions related to these plans, estimates, projections, beliefs and opinions may change, and are presented for the purpose of assisting the Company's security holders in understanding management's current views regarding those future outcomes and may not be appropriate for other purposes. While the Company anticipates that subsequent events and developments may cause the Company's views to change, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events, except to the extent required by applicable securities laws.

BUSINESS OVERVIEW AND STRATEGY

The Company was incorporated under the *Business Corporations Act* (Ontario) on July 26, 2007. The common shares of the Company ("Shares") trade on the TSX Venture Exchange (the "Exchange") under the symbol TII. The registered office of the Company is: 5000 Yonge Street, Suite 1502, Toronto, Ontario, M2N 7E9.

The principal business of the Company is to provide real estate financings secured by investment properties and real estate developments throughout Canada and the United States. These financings are made to real estate developers and owners who require shorter-term loans to bridge a transitional period of one to five years where they require capital at various stages of development or redevelopment of a property. These loans are typically repaid with lower cost, longer-term debt obtained from other Canadian financial institutions once the applicable transitional period is over or the redevelopment is complete, or from proceeds generated from the sale of the real estate assets.

The types of real estate assets for which the Company arranges financings include residential buildings, mixed-use properties, and land for residential and commercial development and construction projects.

These loan and mortgage financings generally take the form of:

- (i) Land loans registered in first position or second position at the earlier stages of real property development and either subsequently postponing to construction financing or being discharged upon the funding of construction financing, as the project progresses through the development cycle,
- (ii) Term mortgages for the purposes of acquiring or re-financing income producing properties, or
- (iii) Mezzanine / subordinated debt financings of real property developments that have either progressed to the construction phase or are in the process of approaching construction phase.

These financings generally represent loan to cost and loan-to-value ratios of 80%, including all prior encumbrances at the time of underwriting of each loan. In some cases the loan-to-value ratio could increase to 90%. The "loan-to-value" ratio means the ratio, expressed as a percentage, determined by calculating $(A)/(B) \times 100$, where: (A) is the principal amount of the mortgage, together with all other equal and prior ranking mortgages or tranches of mortgages on the real estate; and (B) is the appraised value of the real estate securing the mortgage at the time of funding the mortgage or in a more recent appraisal, if available.

In addition, the Company participates in the development of real estate in Canada and in the United States by providing equity-type financing to developers. These financings provide a minimum return and/or a share of remaining net cash flow from projects, and may be undertaken as a strategic partnership with established developers to pursue the development of real properties ("Joint Arrangements" or "Joint Operations") or an equity investment by the Company in an entity that carries on the business of real estate development ("Portfolio Investments"). The Company generally provides these financings in the form of equity in the entity that holds the real estate asset. When making an equity investment, the Company prefers to invest in the form of preferred equity which ranks ahead of the developers' or owners'

common equity in the project or the entity that carries on the business of real estate development, thereby, providing the Company with the capital protection through subordination.

The objectives of the Company are to originate, create and maintain a diversified portfolio of real estate loans and mortgage investments (the "Loan Portfolio"), to preserve the Company's capital while earning attractive risk-adjusted returns and to create shareholder value over the long-term, through capital appreciation, and payment of dividends (from time to time as the Board of Directors considers appropriate).

Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Through management's relationships with mortgage lenders, brokers, local sponsors and other market participants, the Company is able to identify real estate opportunities where it can provide financing solutions to borrowers while achieving equity-like returns at reduced risk levels as compared to straight equity ownership. The Company differentiates itself by serving these niches with an experienced financing team which generally can provide more flexible terms and creative structuring. Management believes its experience with real estate investments and industry contacts will provide the Company with a consistent flow of quality investment opportunities.

Investment in real estate may be made in by way of a variety of "tranches" with highly differentiated risk/return characteristics based on their position in the capital structure and subordination levels. The Company strives to achieve "equity-like" returns on the Loan Portfolio while bearing lower risk than equity investments, by structuring its financings in a "debt-like" structure.

FIRST QUARTER HIGHLIGHTS

The Company reported revenue of \$4.0 million in the first quarter of 2017, as compared to \$4.3 million in the same period in the prior year, representing a decrease of \$300,000 or 7.0%.

Interest and fee income for the first quarter of 2017 aggregated \$4.0 million, as compared to \$4.2 million in the same period in the prior year, representing a decrease of \$200,000 or 4.8%.

Interest and financing expense for the first quarter of 2017 aggregated \$2.3 million, as compared to \$1.8 million in the same period in the prior year, representing an increase of \$500,000 or 27.8%.

Net income and comprehensive income attributable to common shareholders for the first quarter of 2017 was \$485,000 or \$0.01 per basic and diluted share, as compared to \$115,000 or \$0.00 per basic and diluted share in the same period in the prior year, representing an increase in net income of \$370,000.

The principal balance of the Company's loan and mortgage investments increased to \$117.4 million in the first quarter of 2017, as compared to \$118.2 million in the same period in the prior year, a decrease of 1%, primarily due to repayments of loan and mortgage investments and conversion of a loan and mortgage investments into an interest in joint operations.

On March 9, 2016, the Company advanced a loan of \$10,000,000 to a project owned by an entity controlled by a Canadian borrower (the “Borrower”), secured by two properties (the “Secured Properties”) and the Borrower’s 50% interest in a development project (the “Valermo Homes JV”). The loan agreement provided the Company an option to purchase the 50% interest in the Valermo Homes JV for \$7,000,000. On April 15, 2016, the Company exercised its option and acquired the 50% interest in the Valermo Homes JV for \$7,000,000 which approximates the fair value of the project. The Company has a registered security on the Secured Properties for \$5,000,000. In the event that the Company doesn’t recover the \$7,000,000 from the Valermo Homes JV, the Company is entitled to receive up to \$5,000,000 from the Secured Properties.

The weighted average effective interest rate of the Loan Portfolio at March 31, 2017 and December 31, 2016, including loans in default was 14.9% and 15.3%, respectively. The Company continues to focus on the quality of security through placing its capital in more senior positions in the capital structure and reducing its exposure to unregistered loans. The higher level of security and lower weighted average interest rates have not had significant impact on the Company’s overall profitability given the Company’s focus on the spreads. See – “Financial Performance” and “Capital Structure and Debt Profile – Loan And Mortgage Syndications”.

The weighted average effective interest rates of the loans and mortgage investments of residential housing developments at March 31, 2017 and December 31, 2016 were 15.8% and 15.7%, respectively. The weighted average effective interest rates of the residential income properties at December 31, 2016 was 16.2%. The weighted average effective interest rates of the loans and mortgage investments of lot inventory at March 31, 2017 and December 31, 2016 were 13.8% and 14.1%, respectively. The weighted average effective interest rates of the commercial retail development and land at March 31, 2017 and December 31, 2016 were 15.1%. The weighted average term to maturity at March 31, 2017 and December 31, 2016 was 1.24 years and 1.05 years, respectively.

Mortgages are secured by real estate assets and may include other forms of security. Unregistered loans are not secured by real estate assets, but are secured by other forms of security, such as personal guarantees, or pledge of shares of the borrowing entity.

The following table presents details of the Company’s loan categories in the Loan Portfolio as at March 31, 2017 and December 31, 2016:

	March 31, 2017	% of Investments	December 31, 2016	% of Investments

Scheduled principal repayments of the Loan Portfolio maturing in the next five years are as follows:

	Scheduled principal payments	Investments maturing during the year	Total loan and mortgage investments
Remainder of year	\$ -	\$ 41,673,693	\$ 41,673,693
2017	-	37,885,908	37,885,908
2018	-	29,788,830	29,788,830
2019	-	5,845,539	5,845,539
2020	-	2,194,235	2,194,235
	\$ -	\$ 117,388,205	\$ 117,388,205

Certain of the loans have early repayment rights which, if exercised, would result in repayments in advance of their contractual maturity dates.

Pursuant to certain lending agreements, the Company is committed to fund additional loan advances. The unfunded loan commitments under the existing Loan Portfolio at March 31, 2017 amounted to \$21,225,717, including \$12,056,207 of capitalization of future interest relating to the existing Loan Portfolio compared to \$11,619,581, including \$9,051,743 of capitalization of future interest relating to the Loan Portfolio at December 31, 2016.

The investments comprising the Loan Portfolio are classified as financial assets and categorized as loans and receivables. Loans and receivables are initially recognized at the amount expected to be received less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest rate method less any provision for impairment. The Loan Portfolio is reviewed on a quarterly basis to determine any such impairment.

The Company assesses individually all investments at each reporting date to determine whether there is objective evidence of impairment. The Company uses judgement, taking into account the loan to value of the security, credit quality, payments in arrears, financial difficulty of the underlying asset, as applicable, financial difficulty of the borrower and/or guarantor, and general economic and real estate market conditions for reasonable assurance of timely collection of the full amount of principal and interest and to determine whether any future losses are expected to occur in order to recognize a specific loan provision. As at March 31, 2017 and December 31, 2016, based on the most recent valuations of the underlying assets and managements estimates, the Company has recognized a specific impairment provision of \$310,493.

The Company also assesses collectively for impairment to identify potential future losses by grouping the loan and mortgage investments with similar risk characteristics, to determine whether a collective allowance should be recorded due to loss events for which there is objective evidence but whose effects are not yet evident. Based on the amounts determined by the analysis, the Company used judgment to determine whether or not the actual future losses are expected to be greater or less than the amounts calculated. As at March 31, 2017 and December 31, 2016, the Company has recognized a collective impairment provision of \$590,792.

The changes in the allowance for mortgage investments loss during the three months ended March 31, 2017 and year ended December 31, 2016 was as follows:

	Three months ended March 31, 2017	Year ended December 31, 2016
Balance, beginning of period	\$ 901,285	\$ 478,066
Provision for loan and mortgage investment loss	-	423,219
Balance, end of period	\$ 901,285	\$ 901,285

At March 31, 2017, four project loan investments to entities controlled by the Borrower totaling \$12,588,280 (including interest receivable and fees incurred on these loans totaling \$1,526,481) are in arrears, of which \$248,333 of project loans including interest payable have been syndicated for a net receivable of \$12,339,947. At December 31, 2016, four loan investments to entities controlled by the Borrower totaling \$12,185,468 including interest receivable and fees paid on these loans totaling \$1,123,669 are in default, of which \$248,333 of loan investment including interest payable have been syndicated for a net receivable of \$11,937,135. The weighted average effective interest rate of the loans in default at March 31, 2017 and December 31, 2016 was 19.4%. The foreclosure process has commenced and is proceeding on these loans to enforce the securities and liquidate the loans.

JOINT ARRANGEMENTS

JOINT OPERATIONS

The Company's interests in the following properties are subject to joint control and, accordingly, the Company has recorded its proportionate share of the related assets, liabilities, revenue and expenses of the properties following the proportionate consolidation method.

Montreal Street JV:

In July 2009, the Company entered into a co-tenancy agreement (the "Montreal Street JV") with a development partner and subsequently developed a retail property in Ottawa, Ontario. The land on which the store was developed is subject to a 20 year land lease, with five renewal options of five years each. The Montreal Street JV is subject to joint control and the Company records its proportionate share of the related assets, liabilities, revenue and expenses of the properties using the proportionate consolidation method. The Company's ownership interest in the Montreal Street JV is 55.0%.

Valermo Homes JV:

One of the loan and mortgage investments provided the Company with an option to purchase the 50% interest in Valermo Homes JV owned by affiliate of the Company's borrower. On April 15, 2016, the Company, through its wholly owned subsidiary, Terra Firma (Valermo) Corporation exercised its option and acquired the 50% interest in Valermo Homes JV for \$7,000,000. The Company incurred \$624,681 in closing costs.

The fair value of consideration paid by the Company for its interests in Montreal Street JV and the Valermo Homes JV has been allocated to the identifiable assets acquired and liabilities assumed, based on their fair values at the date of conversion, as follows:

	Total

TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE MONTHS ENDED MARCH 31, 2017

11

Total revenue for the three months ended March 31, 2017 experienced a decrease compared to the same period last year, primarily due to the factors discussed below under “Interest and Fees Earned”. The Company’s principal balance of the Loan Portfolio increased from \$94.3 million at December 31, 2016 to \$117.4 million at March 31, 2017.

Income from operations before income taxes for the three months ended December 31, 2016 was \$692,130 compared to \$214,982 for the three months ended March 31, 2016, primarily impacted by a reduction in interest income as discussed below and the Company not recognizing revenue on the loan investment of \$7 million converted into interest in joint operations.

Net income and comprehensive income for the three months ended March 31, 2017 was \$484,812, compared to \$114,824 for the corresponding period in 2016. The higher net income and comprehensive income compared to the same period last year was primarily due to realized and unrealized foreign exchange gain recorded in the current quarter.

INTEREST AND FEES EARNED

For the three months ended March 31, 2017, interest and fees earned aggregated \$4.0 million, compared to \$4.2 million in the comparative period last year, representing a decrease of \$0.2 million or 6%. This decrease was primarily due to the Company not recognizing income on certain loans that are currently in arrears resulting in a decrease of \$90,000; the Company not recognizing income on the loan investment of \$7.0 million converted into an interest in joint operations resulting in a decrease of \$282,000; and decrease of \$147,000 due to repayments of loan and mortgage investments since March 31, 2016. The decrease was partially offset by an increase in interest and fees earned of \$264,000 from increase in the Company’s principal balance of the Loan Portfolio from \$94.3 million at December 31, 2016 to \$117.3 million at March 31, 2017, along with the decrease in weighted average interest rate on the Loan Portfolio from 15.6% at March 31, 2016 to 14.9% at March 31, 2017. The composition and changes to the Loan Portfolio are discussed under “Investments – Loan and Mortgage Investments”.

For the three months ended March 31, 2017, interest and fees earned from the loan investments to projects owned by entities controlled by the Borrower amounted to \$265,000, as compared to \$736,000 for the three months ended March 31, 2016. Interest and fees earned in the amount of \$878,000 for the three months ended March 31, 2017 was from new loan investments and additional funding on existing loan and mortgage investments funded since March 31, 2016 on projects not owned by entities controlled by the Borrower.

RENTAL INCOME AND PROPERTY OPERATING COSTS

The Company’s proportionate share of the rental income from investment property in operations jointly controlled by the Company for the three months ended March 31, 2017 was \$50,444 compared to \$48,378 for the same period last year. The Company’s proportionate share of the property operating costs in investment property in operations jointly controlled by the Company for the three months ended March 31, 2017 was \$17,331 compared to \$16,092 for the same period last year.

INTEREST EXPENSE

Interest expense for the three months ended March 31, 2017 and 2016 were as follows:

TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE MONTHS ENDED MARCH 31, 2017

12

Interest expense for the three months ended March 31, 2017 was \$2,327,061 compared to \$1,827,241 for the same period last year. The increase in interest expense is attributable primarily to additional loan and mortgage syndications to fund the Loan Portfolio. See – “Capital Structure and Debt Profile – Loan and Mortgage Syndications” and “Revolving Operating Facility”.

GENERAL AND ADMINISTRATIVE EXPENSES

During the three months ended March 31, 2017 and 2016, the Company incurred the following general and administrative expenses:

	Three months ended,		
	March 31, 2017	March 31, 2016	Change Increase/ (decrease)
Salary and benefits	\$ 420,800	\$ 363,747	\$ 57,053

Other expenses	220,342	90,386	129,956
	\$ 896,736	\$ 658,145	\$ 238,591

General and administrative expenses consist mainly of salaries and other personnel costs, professional fees, occupancy costs and other expenses associated with the operation of the Company. General and administrative expenses for the three months ended March 31, 2017 were \$896,736, compared to \$658,145 for the same period last year. Salary and benefits for the three months ended March 31, 2017 includes increase in salary to employees, other than CEO and Executive Vice Chairman. Salary and benefits for the same period last year was lower due to an adjustment to bonus expense, resulted from Chief Executive Officer electing to receive his performance bonus in DSUs. Selling and marketing expenses for the three months ended March 31, 2017, include selling and administrative costs incurred by the Valermo Street JV, which was acquired in April 2016. Other expenses for the three months ended March 31, 2017 was \$220,342, compared to \$90,386 for the same period last year. Other expenses for the three months ended March 31, 2017 includes expenses relating to due diligence work on unfunded loans amounting to \$159,413. No expense relating to due diligence work were incurred during the same period last year. Had these loans been funded, the Company would have recovered these costs from borrowers.

SHARE BASED COMPENSATION

The share-based payments that have been recognized for the three months ended March 31, 2017 and 2016 were as follows:

	Three months ended,		
	March 31, 2017	March 31, 2016	Change Increase/ (decrease)
Share option Plan	\$ 87,935	\$ 166,665	\$ (78,730)
DSU Plan	192,786	43,721	149,065
	\$ 280,721	\$ 210,386	\$ 70,335

Share-based payments associated with the Company's share option plan (the "Plan") amounted to \$87,935 for the three months ended March 31, 2017, compared to \$166,665 for the same period last year. The decrease in share-based

payments associated with the Plan was primarily due the determination of the compensation expense using the graded-vesting accounting method. See “Shareholders Equity – Share-Based Payments”.

The Company has a Deferred Share Unit Plan (the “DSU Plan”) to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Shares by awarding Deferred Share Units (the “DSUs”) as compensation for services rendered.

Share-based payments associated with the DSU Plan for the three months ended March 31, 2017 amounted to \$192,786, compared to \$43,721 for the same period last year. Expense for DSUs is higher for the current quarter as a result of the increased number of DSU’s being issued and vested during the quarter and increase in the Share price over the course of the quarter. See “Shareholders Equity – Share-Based Payments”.

FOREIGN EXCHANGE GAIN (LOSS)

For the three months ended March 31, 2017, the Company recognized a foreign exchange gain of \$197,291 compared to a foreign exchange loss of \$1,229,962 for the same period last year. During the three months ended March 31, 2017, the US. Dollar weakened by approximately 0.3% against the Canadian dollar from \$1.3427 to \$1.3387. As at March 31, 2017, U.S. dollar denominated net monetary assets were US\$17,525,605 compared to US\$11,729,109 as at December 31, 2016, primarily due to increase U.S. dollar cash balances to fund loan and mortgage investments.

LIQUIDITY AND CAPITAL RESOURCES

LIQUIDITY

The return on the Loan Portfolio is an important component of the Company’s financial results. The Company’s investment strategy focuses on the total return of assets needed to support the underlying liabilities, asset-liability management and achieving an appropriate return on capital. The Company’s continued focus is to manage risks and returns and to position its Loan Portfolio to take advantage of market opportunities while attempting to mitigate adverse effects. Material changes in market conditions may adversely affect the Company’s net cash flow from operating activities and liquidity. A more detailed discussion of these risks is found under the “Risks and Uncertainties” section.

The Company expects to be able to meet all of its obligations as they become due and to provide for the future growth of the business. The Company has a number of financing sources to fulfill its commitments including (i) cash flow from its operating activities, (ii) loan and mortgage syndications, (iii) mortgages payable (iv) revolving operating facility (iv) issuance of shares and debentures, or any combination thereof.

CASH FLOWS

The following table details the changes in cash for the three months ended March 31, 2017 and 2016:

The aggregate of this amount was partially offset by repayment of loan and mortgage investments of \$9,137,967.

The cash used in investing activities during the three months ended March 31, 2016 of \$11,375,995, primarily reflects the funding of the Loan Portfolio of \$26,831,029. The aggregate of these amounts was partially offset by repayment of loan and mortgage investments of \$2,542,891; repayment of deposits of \$11,747,370; and decrease in funds held in trust of \$1,164,773.

CAPITAL STRUCTURE AND DEBT PROFILE

CAPITAL STRUCTURE

The Company defines its capital as the aggregate of shareholders' equity, convertible debentures, short-term unsecured notes payable, revolving operating facility, mortgage payable and loan and mortgage syndications. The Company's capital management is designed to ensure that the Company has sufficient financial flexibility, in the short-term and long-term and to grow cash flow and solidify the Company's long-term creditworthiness, as well as to ensure a positive return for the shareholders.

As at March 31, 2017 and December 31, 2016, respectively, the total capital of the Company was as follows:

	March 31, 2017	December 31, 2016

Total capital	\$ 162,479,233	\$ 135,700,235

LOAN AND MORTGAGE SYNDICATIONS

The Company enhances the Loan Portfolio through Loan Syndications, short-term unsecured notes payable, a revolving operating facility and convertible debentures. These financial liabilities are designed to increase the Company's overall returns through the issuance of specific debt instruments bearing lower effective interest rates than those being realized on the Loan Portfolio itself, while lowering the Company's overall risk profile.

Loans and mortgages payable are funded through the following initiatives:

- (i) The syndication of certain loan investments to private investors each participating in a prescribed manner on an investment by investment basis. In these cases, the investors rank on a pari-passu basis with the Company's share of Loan and Mortgage Investments.
- (ii) Conventional construction or permanent financing secured by the project or investment property. In these cases, the Company is generally in second position to the conventional construction lenders.

The Loan Portfolio that may initially be funded by the Company may then be syndicated to other lenders sourced by the Company on a pari passu basis. The syndicated portion of the investments are owned by the investors in a prescribed manner and are governed by loan servicing agreements. The terms of the syndication would mirror the terms of the loan with the exception of the interest rate paid to syndicated investors. In addition the Company would retain any commitment fee and certain other fees earned from the borrower. Management of the mortgage origination, funding, payouts and delinquency (if applicable) are all administered by Terra Firma MA Ltd. (the "TFMA"), the subsidiary of the Company on behalf of the syndicate investors. The security documents are typically registered in the name of the Company and held in trust on behalf of the syndicated investors.

The loan servicing agreement stipulates the ownership interest of the syndicate investors in the loan investments and segregates the ownership of the syndicate investors from the Company. Each syndicated Loan and Mortgage Investment has a designated rate of return that the syndicated investors expect to earn from that Loan and Mortgage Investment. This specific rate will vary from mortgage to mortgage depending on the loan-to-value, mortgage position, location, term, and exit strategy.

Under IFRS the Company recognizes the loan and mortgage investments and the loan syndications on a gross basis. The interest income earned and related interest expense on the syndicate investors are recognized in the statements of income and comprehensive income. From a legal perspective, the syndicated portion of the loan and mortgage investments are owned by syndicate investors. The Company neither has a beneficial ownership in the syndicated assets nor has any obligation with regards to the syndicated loans.

TFMA administers the Loan Syndications and all funding from and to syndicate investors are funded to and from the trust account held by this entity. The Loan Syndications have no recourse to the Company and there is no obligation of the Company to fund any principal or interest shortfalls.

The following table presents details of the loan and mortgage syndications as at March 31, 2017 and December 31, 2016:

	March 31, 2017			December 31, 2016

DUE TO JOINT OPERATIONS PARTNER

The co-ownership agreement on Valermo Homes JV provides that the Company will not be required to make any other contributions in respect of expenses or development costs and the development partner will loan the applicable amounts to the co-ownership at an interest rate between 7% and 9% per annum. The interest is calculated using the formula specified in the co-ownership agreement. At March 31, 2017 and December 31, 2016, the amount due to joint operations partner was \$5,293,891 and \$11,163,640, respectively.

SHORT-TERM UNSECURED NOTES PAYABLE

During year ended December 31, 2016, the Company issued short-term unsecured notes payable to syndicate investors totaling \$250,000, including those investors of the loan and mortgage investments in the amount of \$50,000 who elected to convert their interest into a short-term unsecured note payable. During the year ended December 31, 2016, holders of short-term unsecured notes payable totaling \$6,794,300 elected to convert their notes into syndication in the loan and mortgage investment. During the year ended December 31, 2016, the Company repaid \$2,741,700 of short-term unsecured notes payable.

As at March 31, 2017 and December 31, 2016, the Company had no outstanding short-term unsecured notes payable.

The short-term unsecured notes payable bore annual interest in the range of 7% - 9%, had a term of 6 months from issuance, were closed for prepayment through the full term, and were convertible, in whole or in part, into loan and mortgage syndications on the terms and conditions to be agreed by the holders and the Company. The Company had an option to extend these notes by three months, at any time prior to the maturity date.

The following table summarizes the changes in the short-term unsecured notes payable for the three months ended March 31, 2017 and 2016:

REVOLVING OPERATING FACILITY

On April 23, 2015, the Company entered into a Revolving Operating Facility Credit Agreement with a lending institution for a \$10 million secured revolving loan facility (the "Facility") with a 24-month term, maturing on May 1, 2017. The lender offered to provide the Company with two, 6-month extension options and increase the credit limit, under certain conditions. Interest on advanced funds under the Facility is 9.5% per annum for the first 23 months and 12.0% thereafter. The Facility is subject to a redetermination of a borrowing base, calculated as a percentage of eligible loan and mortgage investments and subject to certain adjustments. As security for its obligations under the Facility, the Company has entered into certain security documents, including a general security agreement, a specific assignment of the Company's current and future participating loan interests in certain real estate investments located throughout Canada and the United States. The Facility allows the Company to fund and warehouse new investments while raising syndicate on and/or co-investment capital.

In connection with the Facility, the Company incurred lender and other third-party costs of \$204,717. The costs associated with the Facility have been deferred and are being amortized over the term of the Facility as interest and financing costs using the effective-interest amortization method.

For the three months ended March 31, 2017 and 2016, amortization of deferred financing costs reported as interest expense and financing costs totaled \$25,739 and \$25,534, respectively.

The following table presents details of the revolving operating facility as at March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016
Face value	\$ 10,000,000	\$ 7,500,000
Unamortized financing costs	(6,675)	(32,414)
	\$ 9,993,325	\$ 7,467,586

During the period ended March 31, 2017 and 2016, the Company borrowed an aggregate amount of \$2,500,000 and \$nil, respectively and repaid \$nil and \$nil, respectively, against the Facility.

Subsequent to March 31, 2017, the Company elected to repay the Facility in full.

The lender has offered to provide the Company with two, 6-month extension options and increase the credit limit, under certain conditions. The Company is evaluating whether to accept such offer or replace the Facility with another facility with another lender while maintaining the Company's flexible capital structure to optimize the costs of capital.

CONVERTIBLE DEBENTURES

On September 29, 2014, the Company issued by way of private placement, unsecured subordinated convertible debentures (the "Debentures") in the principal amount of \$10,850,000. The Debentures bear interest at an annual rate of 7%, payable quarterly on the last business day of each calendar quarter and mature on September 27, 2017. The Debentures are convertible into Shares of the Company in whole or in part, at the option of the holder at any time up to maturity at a conversion price of \$0.72 per Share. The Company may, at any time prior to the maturity date and upon giving notice, prepay the Debentures in full or in part, by paying the holders thereof the outstanding principal amount plus all accrued and unpaid interest, provided that the market price per Share on the date on which the redemption notice is provided is at least 125% of the conversion price.

The fair value of the liability component of the Debentures was calculated by discounting the stream of future principal and interest payments at the rate of 8.0% which represents the rate of interest prevailing at the date of issue for instruments of similar terms and risks. The debt component was assigned a value of \$10,486,460 (net of transaction costs of \$76,962) and the equity component was assigned a value of \$284,490 (net of transaction costs of \$2,088). The effective interest rate of the Debentures is 8.53%.

(b) Deferred Share Unit Plan

The Company has a DSU Plan to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Shares by awarding DSUs as compensation for services rendered.

The Board determines the amount, timing, and vesting conditions associated with each award of DSUs. Directors are obligated to contribute, on the last day of each quarter, a minimum of 50% and may elect to receive up to 100% of their annual retainer in DSUs and employees may elect to receive up to 25% of their annual bonus in DSUs. DSUs granted pursuant to such an election are fully vested on the date of grant. In addition, when the directors elect to receive more than 50% of their fees in DSUs, the Company will grant additional DSUs equal to 50% of the value of the DSUs that are over the 50% minimum amount received by them. When the employees elect to receive their bonus in DSUs, the Company will grant additional DSUs of up to 20% of the value of DSUs granted to them. Of the additional DSUs granted by the Company to the directors, 50% vest in six months from the date of grant and 50% of the additional DSUs vest in 12 months from the date of grant. The additional DSUs granted to the employees vest 33.33% annually.

Each DSU has the same value as one Share (based on the five day volume weighted average trading price). Directors must retain DSUs until they leave the Board of Directors, or in the case of officers or employees, until their employment is terminated, at which time the redemption payment equal to the value of the DSUs, calculated as the volume weighted average closing price of the Shares for the last five days preceding the redemption date, net of applicable taxes are paid out.

The following table presents the changes in DSUs for the three months ended March 31, 2017 and year ended December 31, 2016:

	Number of DSUs	
	March 31, 2017	December 31, 2016
DSUs outstanding, beginning of period	2,394,066	1,757,001
Granted	68,111	637,065
DSUs outstanding, end of period	2,462,177	2,394,066
Number of DSUs vested	2,366,820	2,292,150

The total cost recognized with respect to DSUs, including the change in fair value of DSUs during the three months ended March 31, 2017 and 2016 were \$192,786 and \$43,721, respectively.

The carrying amount of the liability, included in accounts payable and accrued liabilities relating to the DSUs at March 31, 2017 and December 31, 2016 are \$1,751,447 and \$1,558,661, respectively.

(c) **Broker warrants**

As part of a bought deal prospectus offering (the “Offering”) completed on May 5, 2015, the Company granted 1,014,713 broker warrants to underwriters as partial consideration for their services associated with the Offering. Each broker warrant entitles the holder to acquire one Share of the Company at an exercise price of \$0.85 per Share, with an expiry date of May 5, 2017.

As of March 31, 2017 and December 31, 2016, there were outstanding broker warrants to purchase 1,014,713 Shares with exercise price of \$0.85 per Share.

LOAN AND MORTGAGE SYNDICATIONS, SHORT-TERM UNSECURED LOANS PAYABLE AND CONVERTIBLE DEBENTURES

Certain of the Company’s loan and mortgage investments are syndicated with other investors of the Company, which may include officers or directors of the Company. The Company ranks equally with other members of the syndicate as to payment of principal and interest.

At March 31, 2017 and December 31, 2016, the Loan Portfolio and Debentures syndicated by officers and directors were \$2,313,870 and \$1,997,135, respectively.

OFFICE PREMISES

The Company sub-leased a portion of the office premises to a company controlled by the Chairman, pursuant to a sublease agreement corresponding to the terms of the Company's lease. The costs are divided in accordance with actual use. During the three months ended March 31, 2017 and 2016, the Company received \$19,705 for the occupancy and office costs.

SHAREHOLDERS' EQUITY

On December 19, 2016, certain directors of the Company exercised 74,667 options that had been granted to purchase Shares at \$0.50 per Share. The consideration of \$37,334, received on exercising the options was recorded as share capital and the related contributed surplus of \$29,822 was transferred to share capital.

SIGNIFICANT ACCOUNTING POLICIES AND CHANGES IN ACCOUNTING POLICIES

A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements for the year ended December 31, 2016 which can be found under the Company's profile at www.sedar.com.

USE OF ESTIMATES

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the year. Actual results may differ from these estimates.

In making estimates, the Company relies on external information and observable conditions where possible, supplemented by internal analysis as required. Those estimates and judgments have been applied in a manner consistent with the prior year and there are no known trends, commitments, events or uncertainties that the Company believes will materially affect the methodology or assumptions utilized in making those estimates and judgments in these consolidated financial statements.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant are disclosed separately. Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could also differ from those estimates under different assumptions and conditions.

Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of these consolidated financial statements and the reported amounts of revenue and expenses during the years. Actual results could also differ from those estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

FINANCIAL INSTRUMENTS

The Company, as part of its operations, carries a number of financial instruments. The Company's financial instruments consist of cash and cash equivalents, funds held in trust, interest and other receivables, the Loan Portfolio, portfolio investment, accounts payable and accrued liabilities, provision for discontinued operations, loans and mortgages payable, short-term unsecured notes payable and the liability component of convertible debentures.

The fair value of interest and other receivables and accounts payable and accrued liabilities approximate their carrying values due to their short-term maturities.

The fair value of loans and mortgage investments, Loan Syndications, Due to joint operations partner, mortgages payable, due to joint operations partner, revolving operating facility and convertible debentures approximate their carrying value as they are short-term in nature. There is no quoted price in an active market for the Loan Portfolio, Loan Syndications or convertible debentures. The Company makes the determinations of fair value based on its assessment of the current lending market for Loan Portfolio of same or similar terms. As a result, the fair value is based on Level 3 on the fair value hierarchy.

The Company uses various methods in estimating the fair values recognized in the consolidated financial statements. The fair value hierarchy reflects the significance of inputs used in determining the fair values.

- Level 1 - quoted prices in active markets
- Level 2 - inputs other than quoted prices in active markets or valuation techniques where significant inputs are based on observable market data; and
- Level 3 - valuation technique for which significant inputs are not based on observable market data.

The fair value of the Company's investment properties, Portfolio Investments and non-controlling interest are determined by using Level 3 inputs at March 31, 2017 and December 31, 2016 and no amounts were transferred between fair value levels during the three months ended March 31, 2017 or 2016.

FUTURE CHANGES IN SIGNIFICANT ACCOUNTING POLICIES

Certain new standards, amendments and interpretations have been published that are mandatory for the Company's accounting periods beginning on or after January 1, 2017 or later periods that the Company has decided not to early adopt. The following are standards, amendments and interpretations that may be relevant to the Company in preparing its consolidated financial statements in future periods.

IFRS 9 FINANCIAL INSTRUMENTS ("IFRS 9")

IFRS 9 was issued to replace IAS 39, "*Financial Instruments: Recognition and Measurement*". IFRS 9 has two measurement categories: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. All equity instruments are measured at fair value. A debt instrument is measured at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest; otherwise, it is measured at fair value through profit and loss. This standard is effective for years beginning on or after January 1, 2018. The extent of impact of adoption of IFRS 9 has not been determined.

IFRS 15 REVENUE FROM CONTRACTS WITH CUSTOMERS ("IFRS 15")

IFRS 15 provides a comprehensive framework for recognition, measurement and disclosure of revenue from contracts with customers, excluding contracts within the scope of the standard on leases, insurance contracts and financial instruments. IFRS 15 becomes effective for annual periods beginning on or after January 1, 2018 and is to be applied retrospectively. Early adoption is permitted. The extent of the impact of adoption of the standard has not been determined.

IFRS 16 LEASES ("IFRS 16")

IFRS 16 will replace existing lease guidance in IFRS and related interpretations, and requires companies to bring most leases on-balance sheet. The financial reporting impact of adopting IFRS 16 is being assessed and is effective for years beginning on or after January 1, 2019. Early adoption will be permitted only if the company has adopted IFRS 15 Revenue from Contracts with Customers. The extent of the impact of adoption of the standard has not been determined.

None of the new standards, interpretations and amendments, which are effective for the Company's accounting periods beginning after January 1, 2017 and which have not been adopted early, are expected to have a material effect on the Company's future financial statements.

OFF BALANCE SHEET ITEMS

As of March 31, 2017 and December 31, 2016, the Company did not have any off-balance sheet (statement of financial position) arrangements.

RISKS AND UNCERTAINTIES

There are certain risks inherent in an investment in the securities of the Company and in the activities of the Company, including the following, which current and prospective holders of securities of the Company should carefully consider. If any of the following or other risks occurs, the Company's business, prospects, financial condition, financial performance and cash flows could be materially adversely impacted. In that case, the trading price of the securities of the Company could decline and investors could lose all or part of their investment in such securities. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below or other unforeseen risks.

GENERAL BUSINESS RISKS

The Company is subject to general business risks and to risks inherent in the commercial and residential real estate lending, including both the making of loans secured by real estate and the development and ownership of real property. Income and gains from the Company's investments may be adversely affected by:

- i. changes in national or local economic conditions,
- ii. changes in demand for newly constructed residential units,
- iii. the inability of property owners to secure and retain tenants,
- iv. the financial inability of tenants to meet their lease obligations,
- v. changes in interest rates and in the availability, cost and terms of any mortgage or other financing,
- vi. the impact of present or future environmental legislation and compliance with environmental laws,
- vii. changes in real estate assessed values and taxes payable on such values and other operating expenses, or
- viii. civil unrest, acts of God, including earthquakes and other natural disasters and acts of terrorism or war (which may result in uninsured losses).

Any of the foregoing events could impact the ability of borrowers to timely repay (if at all) loans made by the Company, negatively impact the value or viability of a development project in which the Company has invested or negatively impact the value of portfolio properties of the Company or their ability to generate positive cash flow.

In addition, the Company may be unable to identify and complete investments that fit within its investment criteria. The failure to make a sufficient number of these investments would impair the future growth of the Company.

MARKET RISK

Market risk is the risk that the value of an investment will fluctuate as a result of changes in market price whether the changes are caused by factors specific to the investment or factors affecting all securities in the market.

The Company's objective of managing this risk is to minimize the volatility of earnings. The Company mitigates this risk by charging interest rates which are significantly above normal banking rates.

CREDIT RISK

Credit risk is the risk of financial loss from the failure of a borrower, for any reason, to fully honour its financial or contractual obligations to the Company, primarily arising from the Company's loan and mortgage investment activities. Fluctuations in real estate values may increase the risk of default and may also reduce the net realizable value of the collateral property to the Company. Credit losses occur when a borrower fails to meet its obligations to the Company and the value realized on the sale of the underlying security deteriorates below the carrying amount of the exposure.

The Company is exposed to credit risk on all of its financial assets and its exposure is generally limited to the carrying amount on the consolidated statements of financial position.

Cash and cash equivalents are held with financial institutions that management believes are of high credit quality.

The Company mitigates the risk of credit losses on its Loan Portfolio by maintaining strict credit policies and conducting thorough investment due diligence, ensuring loans and mortgages have risk-adjusted loan to value, together with personal guarantees by the borrowers and parties related to the borrowers, reviewing and approving new loans and mortgages and continually monitoring change in value of underlying collateral.

The Company regularly reviews the Loan Portfolio and interest receivable listing for balances in arrears and follows up with clients as needed regarding payment. For individual accounts in arrears where discussion with the client has not succeeded, foreclosure proceedings commence. Balances receivable include accrued interest and legal and other costs related to attempts at collection. Where the loan investments are collateralized by real property and losses are recognized to the extent that recovery of the balance through sale of the underlying property is not reasonably assured.

At March 31, 2017, four project loan investments totalling \$12,588,280, including interest receivable and fees incurred on these loans totalling \$1,526,481, to entities controlled by the same borrower are in arrears, of which \$248,333 of loans including interest payable have been syndicated. Certain affiliates of the borrower announced restructuring proceedings under the *Bankruptcy and Insolvency Act (Canada)*. As at March 31, 2017, based on the most recent valuations of the underlying assets and managements estimates, the Company has provided a specific impairment loss provision of \$310,493.

CURRENCY RISK

Currency risk is the risk that the fair value or future cash flows of the Company's foreign currency denominated Loan Portfolio, Loan Syndications and cash and cash equivalents will fluctuate based on changes in foreign currency exchange rates.

The following table presents the amounts denominated in U.S. dollars as at March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016
Cash and cash equivalents	\$ 5,607,961	\$ 250,033
Amounts receivable and prepaid expenses	2,322,461	1,695,516
Deposits	-	3,256,074
Loan and mortgage investments	52,772,840	30,372,383
Accounts payable and accrued liabilities	(1,539,326)	(1,204,623)
Unearned income	(423,159)	(115,279)
Loan and mortgage syndications	(41,212,172)	(22,524,995)
	\$ 17,528,605	\$ 11,729,109

Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk. Consequently, the Company is subject to currency fluctuations that may impact its financial position and results. The Company manages its currency risk on Loan Portfolio by syndicating and or borrowing in the same currency.

INTEREST RATE RISK

Interest rate risk arises due to exposure to the effects of future changes in the prevailing level of interest rates. The Company is exposed to interest rate risk arising from fluctuations in interest rates primarily on its loan and mortgage investments, debentures payable, loan and mortgage syndications and mortgages payable.

The Company mitigates its exposure to this risk by entering into contracts having either fixed interest rates or interest rates pegged to prime for its loan and mortgage investments, loan and mortgage syndications, mortgages payable and asset liability matching. Such risk is further mitigated by the general short term nature of loan and mortgage investments.

LIQUIDITY RISK

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to ensure, to the extent possible, that it always has sufficient liquidity to meet its liabilities when they come due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's credit worthiness.

The Company manages liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities.

If the Company is unable to continue to have access to its loans and mortgages syndications, revolving operating facility and convertible debentures, the size of the Company's loan and mortgage investments will decrease and the income historically generated through holding larger investments by utilizing leverage will not be earned.

Contractual obligations as at March 31, 2017 are due as follows:

	Less than 1 year	More than 1 year	Total
Accounts payable and accrued liabilities	\$ 12,684,940	\$ -	\$ 12,684,940
Due to joint operations partner	5,293,891	-	5,293,891
Construction loan payable	5,065,000	-	5,065,000
Revolving operating facility	10,000,000	-	10,000,000
Mortgages payable	18,947	1,480,153	1,499,100
Convertible debentures	10,850,000	-	10,850,000
	\$ 43,912,778	\$ 1,480,153	\$ 45,392,931

SUBORDINATED DEBT FINANCING

Subordinated financings that are carried on by the Company would generally be considered riskier than primary financing because the Company will not have a first-ranking charge on the underlying property. When a charge on a property is in a position other than first-ranking, it is possible for the holder of a prior charge on the property to realize on the security given for the loan, in priority to and to the detriment of the Company's security interest in such property or security.

DEVELOPMENT STRATEGY

Any development projects in which the Company invests are subject to a number of risks, including, but not limited to:

- (i) construction delays or cost overruns that may increase project costs,
- (ii) financing risks,
- (iii) the failure to meet anticipated occupancy or rent levels,
- (iv) failure to meet anticipated sale levels or prices,
- (v) failure to receive required zoning, land use and other governmental permits and authorizations and/or
- (vi) changes in applicable zoning and land use laws.

INVESTMENTS IN JOINT OPERATIONS

In any joint operations in which the Company invests, the Company may not be in a position to exercise sole decision-making authority. Investments in joint operations may, under certain circumstances, involve risks not present when a third party is not involved, including the possibility that joint operations partners might become bankrupt or fail to fund their share of required capital contributions. Joint operations partners may have business interests or goals that are

inconsistent with the Company's business interests or goals and may be in a position to take actions contrary to the Company's policies or objectives. Any disputes that may arise between the Company and its joint operations partners could result in litigation or arbitration that could increase the Company's expenses and distract its officers and/or directors from focusing their time and effort on the Company's business. In addition, the Company might in certain circumstances be liable for the actions of its joint operations partners.

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Company's CEO and Chief Financial Officer ("CFO") are responsible for establishing and maintaining the Company's disclosure controls and procedures. The Company's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the Company is recorded, processed, summarized and reported within the time periods specified under Canadian securities laws, and include controls and procedures that are designed to ensure that information is accumulated and communicated to management, including the CEO and CFO, to allow timely decisions regarding required disclosure. As of the end of the period covered by this MD&A, the Company's CEO and CFO evaluated the Company's disclosure controls and procedures and, based upon that review and evaluation, concluded that those disclosure controls and procedures are effective.

The Company is not required to certify the design and evaluation of its disclosure controls and procedures. Inherent limitations on the ability of the certifying officers to design and implement, on a cost effective basis, disclosure controls and procedures for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS. Given the small size of the Company, and, consequently, limited staff levels, certain duties within the accounting and finance department cannot be properly segregated. However, none of the segregation deficiencies is likely to result in a misstatement to the consolidated financial statements as the Company relies on certain compensating controls, including the detailed monitoring of operations and transactions by the CEO and CFO. No material changes were made in the Company's internal control over financial reporting during the three months ended March 31, 2017.

The Company is not required to certify the design and evaluation of its internal control over financial reporting and has not completed such an evaluation. Inherent limitations on the ability of the certifying officers to design and maintain, on a cost effective basis, internal control over financial reporting for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

FUTURE OUTLOOK

The following section includes certain forward looking statements, including in regards of the Company's objectives and priorities. Please refer to the section titled "Caution Regarding Forward Looking Statements" on page 1 of this MD&A.

The objective of the Company is to provide attractive returns to shareholders over the long-term, through appreciation in net book value. Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Management believes there will be significant opportunities for the Company to expand its presence in the market; however, it continues to be prudent in its approach to selection of new investments and pricing. Management expects to be able to generate interest rates similar to those reflected in the current portfolio during the remainder of 2017.

The Company's ability to achieve its objectives is dependent on management's ability to execute on its business strategy as described while also successfully mitigating business risks as discussed in this MD&A.

SUBSEQUENT EVENTS

On May 1, 2017, companies related to an entity that owns two projects that the Company has two U.S. loan and mortgage investments in filed for protection under Canada Companies' Arrangement Act in Canada (the "Filing". At May 10, 2017, these project loan investments, including interest receivable, totaled U.S. \$7,659,574, of which U.S. \$6,457,681 have been syndicated for a net receivable of the Company of U.S. \$1,298,469. These loans, secured by 1st mortgages on the projects, have a loan to value of less than 40% and are performing in accordance with their loan agreements. After review and discussions with the borrower, the Company understands that only the Canadian company and its Canadian subsidiaries related to the borrower are affected by the Filing and not the U.S. borrowers.

On May 2, 2017, an order by the Ontario Superior Court of Justice (Commercial List) approved the settlement agreement of the creditors (including the Company) of a development project securing \$6,144,607 of the loan and mortgage investments of the Company that are currently in default with a Borrower. Such settlement allows for the completion of the project and the ultimate sale of the residential units. All proceeds of such sales will be directed to repay all creditors (including the Company). The settlement is subject to certain conditions to be satisfied under the agreement to complete the project.
