MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

**FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019**

**NOVEMBER 14, 2019**

**INTERPRETATION**

The current and prior-period comparative results for the Terra Firma Capital Corporation (the “Company”) reflect the consolidation of the Company and its interests in joint operations, investments in associates and portfolio investments in its wholly owned subsidiaries which are controlled by the Company. Unless the context otherwise requires, all references in this Management’s Discussion and Analysis (“MD&A”) to the “Company” refer to Terra Firma Capital Corporation and its subsidiaries.

The Company’s unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2019 have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34).

The following MD&A of the financial performance, financial condition, and cash flows of the Company dated November 14, 2019 for the three and nine months ended September 30, 2019 should be read in conjunction with the Company’s unaudited interim condensed consolidated financial statements and accompanying notes for the same period as well as the Company’s annual MD&A for the year ended December 31, 2018 and audited consolidated financial statements for the same period. These documents are available under the Company’s profile on the System for Electronic Document Analysis and Retrieval (“SEDAR”) at [WWW.SEDAR.COM](http://WWW.SEDAR.COM).

**SHARE CONSOLIDATION**

Effective September 20, 2019, the Company completed a share consolidation of its share capital on the basis of one post-consolidation Share for each ten pre-consolidation Shares. As a result of the share consolidation, the Company’s 55,650,336 Shares issued and outstanding were consolidated to 5,565,033 Shares. The number of shares, warrants, options, deferred share units (the “DSUs”) and earnings per share data presented in this MD&A have all been adjusted retroactively to reflect the impact of this share consolidation.

**CHANGE IN FUNCTIONAL AND PRESENTATION CURRENCY**

Effective January 1, 2019, the Company changed its functional currency from Canadian dollar (the “CAD”) to the United States dollar (the “USD”). Prior to January 1, 2019, the functional currency of the Company, was the Canadian dollar (“CAD”). Per IAS 21 - The Effects of Changes in Foreign Exchange Rates (“IAS 21”), an entity’s functional currency should reflect the underlying transactions, events and conditions that are relevant to the entity. Management considered primary and secondary indicators in determining functional currency including the currency that influences sales prices, labour, purchases and other costs. Other indicators including the currency in which funds from financing activities are generated and the currency in which receipts from operations are usually retained. At December 31, 2018, over 80.0% of the Company’s investments are fully exposed to the USD, as well, the Company earns majority of the revenues in USD. Based on these factors, management concluded that effective January 1, 2019, the parent company’s functional currency should be the USD. The Company has accounted for the change in functional currency prospectively, as provided for under IAS 21 with no impact of this change on prior year comparative information other than in conjunction with the change in presentation currency as discussed below.

Concurrent with the change in functional currency, on January 1, 2019, the Company changed its presentation currency from the CAD to the USD. The change in presentation currency better reflects the Company’s business activities, comprised primarily of USD transactions and provides shareholders with a more accurate reflection of the Company’s underlying performance. This change is applied retroactively, and comparative financial statements have been restated. Unless otherwise stated, all amounts discussed herein are denominated in USD. This accounting policy change is discussed in Note 3(a) to the September 30, 2019 unaudited interim condensed consolidated financial statements of the Company.

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this MD&A constitute forward-looking information within the meaning of Canadian securities laws (“forward-looking statements”). Forward-looking statements are provided for the purposes of assisting the reader in understanding the Company’s financial performance, financial condition and cash flows as at and for the periods ended on certain dates and to present information about management’s current expectations, plans, estimates, projections, beliefs and opinions relating to the future and readers are cautioned that the assumptions related to these plans, estimates, projections, beliefs and opinions may change and such statements may not be appropriate for other purposes. Forward-looking statements in this document include, but are not limited to, statements with respect to market opportunities for the identification and funding of loans, the provision to the Company of a consistent flow of quality investment opportunities, future returns on investments by the Company, as well as other statements under the heading “Future Outlook”, and may relate to future results, performance, achievements, events, prospects or opportunities for the Company or the real estate industry and may include statements regarding the financial position, business strategy, financial results, real estate values, interest rates, loan to cost, plans and objectives of or involving the Company. In some cases, forward-looking statements can be identified by such terms such as “may”, “might”, “will”, “could”, “should”, “would”, “occur”, “expect”, “plan”, “anticipate”, “believe”, “intend”, “seek”, “aim”, “estimate”, “target”, “project”, “predict”, “forecast”, “potential”, “continue”, “likely”, “schedule”, or the negative thereof or other similar expressions concerning matters that are not historical facts.

Forward-looking statements necessarily involve known and unknown risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Company’s control, affect the lending operations, performance and results of the Company and its business, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to, the risks discussed in the Company’s materials filed with Canadian securities regulatory authorities from time to time under the Company’s profile at [www.sedar.com](http://www.sedar.com), including the risks discussed herein at “Risks and Uncertainties” and risks discussed in the Company’s Annual Information Form (the “AIF”) dated March 28, 2019. The reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements as there can be no assurance that actual results will be consistent with such forward-looking statements.

Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management’s perceptions of historical trends, current conditions and expected future developments, as well as other considerations that are believed to be appropriate in the circumstances, including the following: the Canadian economy will remain stable over the next 12 months; the ability of the Company to adapt to any changes in government regulation; the continued availability of equity and debt financing; and the risks referenced above, collectively, will not have a material impact on the Company. While management considers these assumptions to be reasonable based on currently available information, they may prove to be incorrect. This is not an exhaustive list of the factors that may affect any of the Company’s forward-looking statements. Some of these and other factors are discussed in more detail in the Company’s AIF. Investors and others should carefully consider these and other factors and not place undue reliance on the forward-looking statements.

The forward-looking statements contained in this MD&A represent the Company’s views only as of the date hereof. While the Company anticipates that subsequent events and developments may cause the Company’s views to change, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events, except to the extent required by applicable Canadian securities laws.

## NON-IFRS FINANCIAL MEASURES

The Company prepares and releases audited annual consolidated financial statements and unaudited interim condensed consolidated financial statements in accordance with IFRS. In this MD&A, as a complement to results provided in accordance with IFRS, the Company discloses certain financial measures not recognized under IFRS and that do not have standard meanings prescribed by IFRS (collectively the “non-IFRS measures”) as prescribed by the International Accounting Standards Board, do not have standardized meanings prescribed by IFRS and should not be construed as alternatives to profit/loss or other measures of financial performance calculated in accordance with IFRS. These non-IFRS measures are further described below.

- Adjusted net income and comprehensive income, as well as adjusted net income and comprehensive income attributable to common shareholders, adjusted net diluted income and comprehensive income attributable to common shareholders, which in the current periods are equal to adjusted net income and comprehensive income, and adjusted earnings per share are calculated by adjusting the following (as applicable), irrespective of materiality:
  - foreign exchange gains/losses related to the Company’s net U.S. dollar denominated net assets;
  - impairment losses/reversals;
  - net gains/losses on the disposal of equity accounted investments;
  - other unusual one one-time items; and
  - the income tax impact of the items listed above.

For a reconciliation of adjusted net income and comprehensive income to net income and comprehensive income, see “Financial Performance”.

For a reconciliation of adjusted earnings per share to earnings per share, see “Selected Annual and Quarterly Financial Information”.

- Total Investments (excluding cash) consists of loan and mortgage investments, investment in finance leases, Portfolio Investments, Investments in Associates, convertible note receivable and an investment property held in joint operations (collectively the (“Total Investments”)).
- Loan-to-value (the “LTV”) is a measure of risk determined at the time of loan and mortgage investments underwriting calculated as (i) the sum of advanced and un-advanced loan and mortgage investments commitments on a real estate asset (ii) divided by the estimate of the value of the underlying real estate collateral at that time if already developed or after completion of development in the case of a development project.
- Assets under management (the “AUM”) are the assets managed by the Company on behalf of our syndicate investors, as well as our own assets, and include capital commitments that have not yet been drawn.
- Debt-to-equity ratio is the ratio of total debt to total equity. Adjusted debt-to-equity ratio is the ratio of adjusted total debt to total equity. Total debt is defined as the aggregate of loan and mortgage syndications, credit facilities and mortgages payable. Equity is equivalent to shareholders’ equity.
- Adjusted revenue, adjusted expenses, adjusted total assets and adjusted total debt are revenue, expenses, total assets and total debt, adjusted for the effect of interest expense and loan and mortgage syndication as applicable.
- Operating margin is an expression of the Company’s adjusted income from operations before taxes as a percentage of revenue.

The Company has presented such non-IFRS measures because the Company believes these non-IFRS measures are relevant measures of the ability of the Company to earn and distribute cash dividends to investors and to evaluate the Company's performance. These non-IFRS measures should not be construed as alternatives to net income (loss) or cash flows from operating activities determined in accordance with IFRS as indicators of the Company's performance. These measures may differ from those used by other companies and accordingly may not be comparable to such measures as reported by other companies. These measures have been derived from the Company's financial statements, and applied on a consistent basis, because the Company believes they are of assistance in the understanding of the operational and financial performance of the Company. Non-IFRS measures are also commonly used by the financial community to analyze and compare the performance of companies engaged in the same industries.

## BUSINESS OVERVIEW AND STRATEGY

The Company was incorporated under the *Business Corporations Act* (Ontario) on July 26, 2007. The common shares of the Company ("Shares") trade on the TSX Venture Exchange (the "TSX-V") under the symbol TII. The registered office of the Company is: 22 St. Clair Avenue East, Suite 200, Toronto, Ontario M4T 2S3.

The objective of the Company is to preserve the Company's capital while earning attractive risk-adjusted returns and to create shareholder value over the long-term, through capital appreciation, and payment of dividends (from time to time as the board of directors (the "Board") considers appropriate). In order to achieve this objective, the Company originates, creates and manages a diversified loan and equity financings on real properties situated in the United States and Canada.

The principal business of the Company provides real estate financings secured by investment properties and real estate developments throughout the United States and Canada. These financings are made to real estate developers and owners who require shorter-term loans to bridge a transitional period of one to five years where they require capital at various stages of development or redevelopment of a property. These loans are typically repaid with lower cost, longer-term debt obtained from other financial institutions once the applicable transitional period is over or the redevelopment is complete, or from proceeds generated from the sale of the real estate assets.

The Company syndicates certain of its loan and mortgage investments to investors, each participating in a prescribed manner and governed by loan servicing agreements, which are administered by Terra Firma MA Ltd, the wholly owned subsidiary of the Company which currently holds a license under the *Mortgage Brokerages, Lenders and Administrators Act, 2006 (Ontario)* (the "MBLAA") which permits it to carry on the mortgage brokerage and administrative activities and operates in compliance with the requirements of the MBLAA. In these investments, the investors assume the same risks associated with the specific investment transaction as the Company. Each syndicated loan and mortgage investment has a designated rate of return that the syndicated investors expect to earn from that loan and mortgage investment. The interest income earned and related interest expense relating to the syndicate investors are recognized in the statements of income and comprehensive income. See "Capital Structure and Debt Profile – Loan and Mortgage Syndications".

The types of real estate assets for which the Company arranges financings include land for residential and commercial development and construction projects, residential buildings and mixed-use properties.

These loan and mortgage financings generally take the form of:

- (i) Land loans registered in first position or second position at the earlier stages of real property development which are either subsequently subordinated to construction financing or discharged upon the funding of construction financing as the project progresses through the development cycle,
- (ii) Term mortgages for the purposes of acquiring or re-financing income producing properties, or
- (iii) Mezzanine / subordinated debt financings of real property developments that have either progressed to the construction phase or are in the process of approaching construction phase.

5

These financings generally represent loan to cost and loan-to-value ratios of 75%, including all prior encumbrances at the time of underwriting of each loan. In some cases, the loan-to-value ratio could increase to 80%. The “loan-to-value” ratio means the ratio, expressed as a percentage, determined by calculating  $(A)/(B) \times 100$ , where: (A) is the principal amount of the mortgage, together with all other equal and prior ranking mortgages or tranches of mortgages on the real estate; and (B) is the appraised value of the real estate securing the mortgage at the time of funding the mortgage or in a more recent appraisal, if available.

The Company also provides land bank financing to regional and national home builders in growth areas in the U.S. Under these arrangements, the Company acquires entitled residential land or lots on behalf of the home builders and simultaneously enters into an option agreement with the residential builder, pursuant to which the residential builder would make a non-refundable initial deposit of up to 20% of the initial land cost plus total development costs towards the acquisition of the land, get exclusive rights to use the property, including making subdivision improvements according to its development plan and purchase smaller parcels of the initial tract from the Company over time at a specified price, until it had purchased the entire land or lots. The investment in the land banking arrangement through the purchase of land is accounted for by the Company as a finance lease.

In addition, the Company participates in the development of real estate in Canada and in the United States by providing equity-type financing to developers. These financings provide a minimum return and/or a share of remaining net cash flow from projects, and may be undertaken as a strategic partnership with established developers to pursue the development of real properties (“Joint Arrangements” or “Joint Operations”) or an equity investment by the Company in an entity that carries on the business of real estate development (“Portfolio Investments” or “Investments in Associates”). The Company generally provides these financings in the form of equity in the entity that holds the real estate asset. When making an equity investment, the Company prefers to invest in the form of preferred equity which ranks ahead of the developers’ or owners’ common equity in the project or the entity that carries on the business of real estate development, thereby, providing the Company with the capital protection through subordination.

Management believes that there is a significant market opportunity in the U.S., as a result of financing needs not being met by traditional institutional lenders. Through management’s relationships with the U.S. mortgage lenders, brokers, local sponsors and other market participants, the Company is able to identify real estate opportunities where it can provide financing solutions to borrowers while achieving equity-like returns at reduced risk levels as compared to straight equity ownership. The Company differentiates itself by serving niche markets with an experienced financing team that can provide flexible terms and creative structuring. Management believes its experience with real estate investments and its industry contacts will provide the Company with a consistent flow of quality investment opportunities.

Investment in real estate may be made by way of a variety of tranches with highly differentiated risk/return characteristics based on their position in the capital structure and subordination levels. The Company strives to achieve equity-like returns on the loans and/or mortgages advanced by the Company on and secured by real estate (the “Loan Portfolio”) while bearing lower risk than equity investments, by structuring its financings primarily in debt or priority structures.

The following table summarizes the change in the principal balance of Loan Portfolio for the three and nine months ended September 30, 2019 and 2018:

The weighted average effective interest rate (the "EIR") of the Loan Portfolio at both September 30, 2019 and December 31, 2018, including the average interest rate of loan in default was 13.2% and 13.7%, respectively. The Company continues to focus on the quality of security through placing its capital in more senior positions in the capital structure and reducing its exposure to unregistered loans. The higher level of security and lower weighted average EIR had not significantly impacted on the Company's overall profitability given the Company's focus on the spreads earned on the loan and mortgage syndications. See – "Financial Performance" and "Capital Structure and Debt Profile – Loan And Mortgage Syndications".

The weighted average EIR of the loans and mortgage investments of residential housing developments at September 30, 2019 and December 31, 2018 was 13.2% and 13.9%, respectively. The weighted average EIR of the loans and mortgage investments of lot inventory at both September 30, 2019 and December 31, 2018 was 12.9% and 13.6%, respectively. The weighted average EIR of the commercial retail development at September 30, 2019 and December 31, 2018 was 14.3%. The weighted average term to maturity at September 30, 2019 and December 31, 2018 was 1.50 years and 1.67 years, respectively.

The following table presents details of the Company's principal balances of the Loan Portfolio before syndication, segmented by geography as at December 31, 2018:

	Loan and mortgage investments	Allowance for credit losses	Net investments	% of net investments
Canada	\$ 12,191,327	\$ (35,475)	\$ 12,155,852	10.0%
United States	110,018,384	(498,257)	109,520,127	90.0%
	\$ 122,209,711	\$ (533,732)	\$ 121,675,979	100.0%

Beginning in 2015, the Company foresaw opportunities with better risk adjusted returns in the U.S. and began a gradual program of lending in certain U.S. markets following the same prudent lending standards it has historically employed in Canada. The U.S. market continues to offer good quality lending opportunities while the price competition among lenders in the Canadian market remains quite strong. On a comparative basis, the loan and mortgage investment opportunities in the U.S market have generally offered risk/return profiles as good as or better than those available in the Canadian market. The yields on the land and lot inventory loans in U.S. are high on a risk adjusted basis, ranging between 11% and 12% for LTV up to 75%. As such, the Company continues to focus primarily on providing higher leveraged loans (up to 80% LTV) on development lands in the U.S. As a result, the Company has adjusted its marketing efforts in Canada to become more reactive to deals that may present themselves for special situations through existing borrowers or existing contacts rather than taking a proactive approach to generating a greater pipeline of potential transactions.

At September 30, 2019, 88.3% of the loan and mortgage investments are in projects located in the U.S, compared to 90.0% at December 31, 2018. It is anticipated that this market emphasis will continue.

For the nine months ended September 30, 2019, the Company had two loan and mortgage investments in the U.S, before syndication, that accounted for 15.3% and 12.5% of the Company's total interest and fees revenue. As at September 30, 2019, there were three loan and mortgage investments in the U.S., before syndication, that accounted for 19.1%, 14.3% and 10.4% of the principal balance of loan and mortgage investments. For the nine months ended September 30, 2018, the Company had three loan and mortgage investments in the U.S, before syndication, that accounted for 14.3%, 10.7% and 10.4% of the Company's total interest and fees revenue. As at December 31, 2018, there were three loan and mortgage investments in the U.S., before syndication, that accounted for 14.7%, 13.2% and 10.2% of the principal balance of loan and mortgage investments.

2022	-	21,705,822	21,705,822
	\$ -	\$ 113,538,689	\$ 113,538,689

Certain of the loan and mortgage investments have early repayment rights which, if exercised, would result in repayments in advance of their contractual maturity dates.

Pursuant to certain lending agreements, the Company is committed to fund additional loan advances. The unfunded loan commitments under the existing Loan Portfolio at September 30, 2019 amounted to \$25,380,131, including \$4,437,511 of capitalization of future interest relating to the existing Loan Portfolio, compared to unfunded loan commitments under the existing Loan Portfolio of \$23,791,223, including \$4,436,971 of capitalization of future interest relating to the Loan Portfolio at December 31, 2018. The Company has a number of financing sources to fulfill its commitments including (i) cash flow from its operating activities, (ii) loan and mortgage syndications, (iii) mortgages payable (iv) credit facilities (iv) issuance of Shares and debentures, or any combination thereof.

Loan and mortgage investments are debt instruments recognized initially at fair value and are subsequently measured in accordance with the classification of financial assets policy provided in the Company's audited consolidated financial statements for the year ended December 31, 2018, under "Significant Accounting Policies and Changes in Accounting Policies". Loan and mortgage investments carried at amortized cost are measured using the EIR method and are presented net of any allowance for credit losses, calculated in accordance with the Company's policy for allowance for credit losses. Interest on loan and mortgage investments is recognized in interest income using the EIR method. The estimated future cash flows used in this calculation include those determined by the contractual term of the loan and mortgage investment and all fees that are considered to be integral to the EIR. Fees that relate to activities such as originating, restructuring or renegotiating loans are deferred and recognized as interest income over the expected term of such loan and mortgage investments using the EIR method. Foreign exchange gains and losses that relate to the amortized cost of the debt instrument are recognized in the consolidated statements of income. Impairment gains or losses recognized on amortized cost investments are loans are recognized at each balance sheet date in accordance with the three-stage impairment model.

During the year ended December 31, 2018, due to the uncertainty and timing related to recovery of a loan and mortgage investments to entities controlled by a borrower (the “Defaulting Borrower”) in arrears, the Company recorded an allowance for loan and mortgage investments loss of \$2,403,182 and, subsequently a write-off of two loan and mortgage investments totaling \$3,108,435.

On March 24, 2019, the courts approved a settlement between the Company and the Israeli Functionary (the “Functionary”), pursuant to which the lawsuit filed by the Functionary against the Company in Israel has been withdrawn in exchange for the assignment of the Company’s rights in connection with a claim brought in the Defaulting Borrower’s insolvency, which had previously been denied, and certain other rights of the Company. The agreement did not include any cash payment or other consideration by the Company.

At September 30, 2019 and December 31, 2018, a project loan investment originally funded to an entity controlled by the Defaulting Borrower totalling \$2,348,629 and \$3,087,122, respectively (including interest receivable and fees incurred on these loans totalling \$357,124 and \$357,124, respectively) was in arrears. As at September 30, 2019 and December 31, 2018, based on the most recent valuations of the underlying assets and management’s estimates, the Company carries an allowance for credit loss (the “ACL”) balance of \$193,068 and \$193,068, respectively, against the other receivables relating to this loan and mortgage investment. The development of the project according to the settlement agreement of the creditors (including the Company) and approved by the Ontario Superior Court of Justice (Commercial List) has been completed. In accordance with the settlement agreement, all creditors except the Company have been repaid. The remaining funds are held in escrow by the bankruptcy trustee to be distributed to the Company and the home purchasers. The Company expects to receive the net loan and mortgage investment balance of \$2,348,629 over the course of 2019.

The following table presents details the Company’s ACL on loan and mortgage investments as at September 30, 2019:

### INVESTMENT IN FINANCE LEASES

The Company entered into fixed term contractual arrangements with builders whereby the Company acquire land for residential housing development from a third party and provide builders with the exclusive right to use and develop the land (land banking). The Company also enter into a fixed price contract with builders to complete all required development of the land based upon a fixed construction budget. The Company is committed to make additional investments for development of the land, subject to builders meeting certain funding conditions. Under this arrangement, builders have option to acquire the developed land in the form of divided lots, at a pre-determined price and in accordance with the scheduled closing dates to build residential units. Builders provide the Company a non-refundable deposit at each time of the closing of each acquisition. The builder’s deposits are applied on a lot-by-lot basis, on acquisition of the lots by the builders.

At September 30, 2019, the Company had four such arrangements with builders. The Company determined that the arrangements contain a lease and that all of the risks or rewards of ownership of the asset have been transferred to the builders and accounts for these arrangements as finance leases.

The investment in finance leases is the aggregate of gross lease payments and unearned finance income discounted at the interest rate implicit in the leases. The weighted average rate implicit in the leases is 13.3% per annum. The unearned finance income at September 30, 2019, was \$147,517 (September 30, 2018 - \$35,325).

### INVESTMENT PROPERTY

The Company's investment property consists of an income-producing property held in joint operations through the Montreal Street JV.

At September 30, 2019 and December 31, 2018, the fair value was determined by the Company's management. The Company determined the fair value of investment property in the Montreal Street JV using the direct capitalization method. Under the direct capitalization method, fair values were determined by capitalizing the estimated future normalized net operating income at the market capitalization rates. The capitalization rate used in the valuation property was 6.25% (December 31, 2018 - 6.25%). At September 30, 2019 and December 31, 2018, the carrying value of the Company's proportionate share of investment property in the Montreal Street JV was CAD \$2,208,694.

As at September 30, 2019 and December 31, 2018, a 25-basis-point decrease in the overall capitalization rate would increase the Company's proportionate share of value of investment property in the Montreal Street JV by CAD\$92,400 and a 25-basis-point increase in the overall capitalization rate would decrease the Company's proportionate share of the value of investment property in the Montreal Street JV by CAD\$85,250.

### CONVERTIBLE NOTE RECEIVABLE

On January 29, 2019, the Company entered into a loan agreement with an Ontario corporation that provides web-based crowd funding services and holds an Exempt Market Dealer license. The loan was provided to assist in expanding its operations. The loan was made in exchange for a convertible promissory note receivable (the "Convertible Note") with a face value of CAD \$2,000,000. At signing, the Company advanced CAD \$1,000,000 of the CAD \$2,000,000 commitment. The remaining CAD \$1,000,000 will be advanced in tranches upon the achievement of certain key performance indicators. The Convertible Note bears interest at the rate of 8.0% per annum, calculated and compounded semi-annually. The Company has the option to convert the principal and accrued interest into an equity interest. Unless the note is converted pursuant to the terms, the Convertible Note becomes receivable by demand any time after January 29, 2021, which shall be extended for a further twelve months, under certain conditions. The option to settle payments in common shares represents an embedded derivative in the form of a call option to the Company. The Convertible Note in its entirety is classified as at FVTPL. During the nine months ended September 30, 2019, the Company capitalized interest income of \$30,388. The fair value of the Convertible Note at September 30, 2019 and December 31, 2018 was \$786,366 and nil, respectively.

### ASSETS UNDER MANAGEMENT

The Company generates fees and/or carried interest from certain assets managed by the Company on behalf of the Company's syndicate investors that are not the Company's assets and are not included in the Company's financial statements. The Company also manages assets and collects spreads on assets that are shown on the Company's balance sheet. ## TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

19

Net income and comprehensive income for the three months ended September 30, 2019 was \$1,028,859, compared to a net loss and comprehensive loss of \$1,450,463 for the corresponding period in 2018. The increase in net income and comprehensive income compared to the same period last year was primarily due to the factors discussed above in the paragraph regarding income from operations before income taxes for the three months ended September 30, 2019 and 2018.

Net income and comprehensive income for the nine months ended September 30, 2019 was \$2,193,478, compared to \$243,085 for the corresponding period in 2018. The higher net income and comprehensive income compared to the same period last year was primarily due to the factors discussed above in the paragraph regarding income from operations before income taxes for the nine months ended September 30, 2019 and 2018.

The Company's adjusted net income (a non-IFRS measure) for the three and nine months ended September 30, 2019 and 2018 is summarized below:

	Three months ended			Nine months ended		
	September 30, 2019	September 30, 2018	Change Increase / (decrease)	September 30, 2019	September 30, 2018	Change Increase / (decrease)

(1) Adjusted net income and comprehensive income is a non-IFRS measure. See "Non-IFRS Measures".

Adjusted net income and comprehensive (a non-IFRS measure) income for the three months ended September 30, 2019 was \$964,683, an increase of \$318,075 from adjusted net income and comprehensive income of \$646,608 for the corresponding period in 2018. The increase in adjusted net income and comprehensive income compared to the same period last year was primarily due to the factors discussed above in the paragraph regarding income from operations before income taxes for the three months ended September 30, 2019 and 2018.

Adjusted net income and comprehensive income (a non-IFRS measure) for the nine months ended September 30, 2019 was \$2,050,949, an increase of \$665,073 from adjusted net income and comprehensive income of \$1,385,876 for the corresponding period in 2018. The increase in adjusted net income and comprehensive income compared to the same period last year was primarily due to the factors discussed above in the paragraph regarding income from operations before income taxes for the nine months ended September 30, 2019 and 2018.

Pre-tax profit margin (a non-IFRS measure) provides useful information to management and investors as an indicator of the Company's operating performance. The Company believes that pre-tax profit margin is a valuable measure because it assesses the extent the Company is able to earn profit from each dollar of the adjusted revenue (a non-IFRS measure).

### INTEREST AND FEES EARNED

For the three months ended September 30, 2019, interest and fees earned aggregated \$4,125,476, compared to \$3,619,761 in the same period last year. This increase was primarily due to interest and fees and finance income of \$1,473,773, earned from loan and mortgage investments and finance leases funded after September 30, 2018. The increase was partially offset by interest and fees of \$885,948, earned on investments repaid after September 30, 2018. The Company's principal balance of the Loan Portfolio decreased from \$129.5 million and \$122.2 million at September 30, 2018 and December 31, 2018, respectively to \$113.5 million. The decrease in the Loan Portfolio resulted from repayments of loan investments received at the later part of the three months ended June 30, 2019. The investment in finance leases increased from \$2.0 million and \$2.8 million at September 30, 2018 and December 31, 2018, respectively, to \$18.0 million at September 30, 2019. The weighted average EIR on the Loan Portfolio decreased slightly from 14.0% at September 30, 2018 to 13.2% at September 30, 2019.

For the nine months ended September 30, 2019, interest and fees earned aggregated \$11,912,842, compared to \$9,576,938 in the comparative period in 2018, representing an increase of \$2,335,904 or 24.4%, primarily due to interest and fees of \$1,938,340, earned from loan and mortgage investments and finance leases funded after September 30, 2018 and increase in interest and fees of \$2,252,094, earned from loan and mortgage investments funded prior to September 30, 2018. The increase was partially offset by interest and fees of \$1,768,539, earned on investments repaid after September 30, 2018. The composition and changes to the Loan Portfolio are discussed under "Investments – Loan and Mortgage Investments" and the changes to the investment in finance leases are discussed under "Investments – Investments in Finance Leases".

### RENTAL INCOME AND PROPERTY OPERATING COSTS

The Company's proportionate share of the rental income from investment property in operations jointly controlled by the Company for the three months ended September 30, 2019 and 2018 was \$38,211 and \$38,597, respectively. The Company's proportionate share of the property operating costs in investment property in operations jointly controlled by the Company for the three months ended September 30, 2019 was \$13,156 compared to \$13,253 for the same period last year.

22

\$1,824,729 for the same period last year, primarily due to, additional legal fees incurred relating to the loan and mortgage investments in arrears and directors` fees are being paid in cash.

### SHARE BASED COMPENSATION

The share-based compensation that has been recognized for the three and nine months ended September 30, 2019 and 2018 were as follows:

	Three months ended			Nine months ended		
	September 30, 2019	September 30, 2018	Change Increase / (decrease)	September 30, 2019	September 30, 2018	Change Increase / (decrease)
Share option Plan	\$ 44,204	\$ 119,481	\$ (75,277)	\$ 150,436	\$ 222,394	\$ (71,958)
DSU Plan	(105,496)	(79,161)	(26,335)	203,138	(3,920)	207,058
	\$ (61,292)	\$ 40,320	\$ (101,612)	\$ 353,574	\$ 218,474	\$ 135,100

Share-based payments associated with the Company's share option plan (the "Plan") were \$44,204 for the three months ended September 30, 2019, compared to \$119,481 for the same period last year. The decrease in share-based payments associated with the Plan was primarily due lower number of options granted in 2019 and the determination of the compensation expense using the graded-vesting accounting method. See "Shareholders Equity – Share-Based Payments".

The Company has a DSU Plan to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Shares by awarding DSUs as compensation for services rendered.

The recovery of share-based payments associated with the DSU Plan for the three months ended September 30, 2019 were \$105,496, compared to \$79,161 for the same period last year. Share-based payments associated with the DSU Plan for the nine months ended September 30, 2019 were \$203,138, compared to recovery of share-based payments of \$3,920 for the same period last year. The recovery of and increase in share-based payments associated with the DSU Plan for the three and nine months ended September 30, 2019 were primarily due to decrease and increase in the share price and the vesting of additional DSUs during the period. See "Shareholders Equity – Share-Based Payments".

### FOREIGN EXCHANGE GAIN (LOSS)

For the three and nine months ended September 30, 2019, the Company recorded a realized and unrealized foreign exchange gain of \$88,171 and \$42,016, respectively (realized and unrealized foreign exchange gain (loss)) for the three and nine months ended September 30, 2018, (\$675,783) and \$796,204, respectively).

## LIQUIDITY AND CAPITAL RESOURCES

### LIQUIDITY

The return on the Loan Portfolio is an important component of the Company's financial results. The Company's investment strategy focuses on the total return of assets needed to support the underlying liabilities, asset-liability management and achieving an appropriate return on capital. The Company's continued focus is to manage risks and returns and to position its Loan Portfolio to take advantage of market opportunities while attempting to mitigate adverse effects. Material changes in market conditions may adversely affect the Company's net cash flow from operating activities and liquidity. A more detailed discussion of these risks is found under the "Risks and Uncertainties" section.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

### CAPITAL STRUCTURE AND DEBT PROFILE

#### CAPITAL STRUCTURE

The Company defines its capital as the aggregate of shareholders' equity, loan and mortgage syndications, Credit Facilities and mortgages payable. The Company's capital management is designed to ensure that the Company has sufficient financial flexibility, in the short-term and long-term and to grow cash flow and solidify the Company's long-term creditworthiness, as well as to ensure a positive return for the shareholders.

The Company adjusts its capital structure considering general economic conditions and the Company's working capital requirements. In order to maintain or adjust its capital structure, the Company, upon approval from its Board, may pay dividends, buy back Shares or undertake other activities as deemed appropriate under the specific circumstances. The Board reviews and approves any material transactions not in the ordinary course of business

As at September 30, 2019 and December 31, 2018, respectively, the total capital of the Company was as follows:

	September 30, 2019	December 31, 2018
Loan and mortgage syndications	\$ 82,902,486	\$ 75,906,550
Credit Facilities	16,549,944	19,464,106

Total capital	\$ 142,344,540	\$ 134,471,491

#### LOAN AND MORTGAGE SYNDICATIONS

The Company enhances the Loan Portfolio through Loan Syndications, Credit Facilities and mortgages payable. These financial liabilities are designed to increase the Company's overall returns through the issuance of specific debt instruments bearing lower effective interest rates than those being realized on the Loan Portfolio itself, while lowering the Company's overall risk profile.

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

Loans and mortgages payable are funded through one of the following initiatives:

- (1) the syndication of certain loan investments to private investors each participating in a prescribed manner on an investment by investment basis, in which cases, the investors rank on a pari-passu basis with the Company's share of Loan and Mortgage Investments; or,
- (2) conventional construction or permanent financing secured by the project or investment property, in which, the Company is generally in a subordinate position to the conventional construction lenders.

The Loan Portfolio that may initially be funded by the Company may then be syndicated to other lenders sourced by the Company on a pari-passu basis. The syndicated portion of the investments are sold to investors and owned by the investors in a prescribed manner and are governed by loan servicing agreements. The terms of the syndication would typically mirror the terms of the loan with the exception of the interest rate paid to syndicated investors. In addition, the Company would retain any commitment fee and certain other fees earned from the borrower. Management of the mortgage origination, funding, payouts and delinquency (if applicable) are all administered by Terra Firma MA Ltd. (the "TFMA"), the subsidiary of the Company on behalf of the syndicate investors. The security documents are typically registered in the name of the Company and held in trust on behalf of the syndicated investors.

The loan servicing agreement stipulates the ownership interest of the syndicate investors in the loan investments and segregates the ownership of the syndicate investors from the Company. Each syndicated Loan and Mortgage Investment has a designated rate of return that the syndicated investors expect to earn from that Loan and Mortgage Investment. This specific rate will vary from mortgage to mortgage depending on the loan-to-value, mortgage position, location, term, and exit strategy.

Under IFRS the Company recognizes the loan and mortgage investments and the loan syndications on a gross basis. The interest income earned and related interest expense on the syndicate investors are recognized in the statements of income and comprehensive income. From a legal perspective, the syndicated portion of the loan and mortgage investments are owned by syndicate investors. The Company neither has a beneficial ownership in the syndicated assets nor has any obligation with regards to the syndicated loans.

TFMA administers the Loan Syndications and all funding from and to syndicate investors are funded to and from the trust account held by this entity. The Loan Syndications have no recourse to the Company and there is no obligation of the Company to fund any principal or interest shortfalls.

The following table presents details of the loan and mortgage syndications as at September 30, 2019 and December 31, 2018:

	September 30, 2019			December 31, 2018		
	Weighted Average Effective Interest Rate	Amount	% of Loans Payable	Weighted Average Effective Interest Rate	Amount	% of Loans Payable
Residential housing developments	8.0%	\$ 17,732,751	21.4%	10.0%	\$ 7,715,756	10.2%

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

26

At December 31, 2018, the weighted average EIR of Loan Syndications was 10.2%, consisting of the syndication of loans pertaining to residential housing developments having a weighted average EIR of 10.0% land and lot inventory, having a weighted average EIR of 10.2% and commercial retail developments having a weighted average EIR of 9.9%. At December 31, 2018, the weighted average term to maturity of Loan Syndications was 1.53 years.

At September 30, 2019, the Company's syndication activities resulted in \$82,902,486 or 73.0% of the Loan Portfolio (by investment amount) being syndicated to investors, yielding a net effective return of 22.9%, and increasing its overall return by 9.7% from its non-leveraged 13.2% return. At December 31, 2018, the Company's syndication activities resulted in \$75,906,550 or 62.1% of the Loan Portfolio (by investment amount) being syndicated to investors, yielding a net effective return of 19.4%, and increasing its overall return by 5.7% from its non-leveraged 13.7% return. Overall, returns may fluctuate significantly due to changes in the relative dollar amounts and the relative change in the weighted average effective interest rates within the Loan Portfolio and Loan Syndications.

The following table summarizes the changes in the principal balance of Loan Syndications for the three and nine months ended September 30, 2019 and 2018:

**CREDIT FACILITIES**

The Company's credit facilities (the "Credit Facilities") consist of a CAD\$20,000,000 secured revolving operating facility (the "Facility") and a U.S. \$20,000,000 master credit facility (the "Master Facility").

**(a) Revolving Operating Facility**

The Company had a revolving operating facility credit agreement (the "Facility Agreement") with a lending institution for a CAD\$20,000,000 secured revolving loan facility (the "Facility") that matured on March 1, 2018. On March 1, 2018, the Company exercised its option to extend the term of the Facility for another nine months for a maturity date to September 1, 2018 and paid the Facility extension fee of \$100,000. The extension fee was deferred and amortized over the six-month extension term of the Facility. The Facility carried an interest rate of 9.5% per annum. The Facility was subject to a redetermination of a borrowing base, calculated as a percentage of eligible loan and mortgage investments and subject to certain adjustments. As security for its obligations under the Facility, the Company entered into certain security documents, including a general security agreement, a specific assignment of the Company's current and future participating loan interests in certain real estate investments located throughout Canada and the United States. The Facility allowed the Company to fund and warehouse new investments while raising syndicate on and/or co investment capital.

On September 4, 2018, the Company amended the Facility Agreement (the "Amendment"), to extend the maturity date to April 1, 2019. The Amendment provides the Company an option for two extensions of the Facility, each for a further term of seven months from the maturity date. Pursuant to the Amendment, the Facility carries an interest rate of 9.5% per annum until one month prior to the maturity date. Any unpaid balance one month prior to the maturity date will carry an interest rate of 12% per annum, until repaid. In connection with the Amendment, the Company incurred lender and other third-party costs of CAD\$100,000. The costs associated with the Amendment have been deferred and are being amortized over the term of the Facility as interest expense using the EIR method.

On April 1, 2019, the Company extended the term of the Facility for another seven months for a maturity date to November 1, 2019. In connection with the extension, the Company incurred lender and other third-party costs of CAD\$100,000. The costs associated with the extension have been deferred and are being amortized over the term of the Facility as interest expense using the EIR method.

During the three months ended September 30, 2019 and 2018, the Company borrowed \$1,871,678 and nil, respectively and repaid \$6,390,985 and nil, respectively, against the Facility.

On October 1, 2019, the Company repaid \$2,265,300 of the Facility. The unpaid balance on the Facility at November 1, 2019 was \$4,214,880. The lending institution of the Facility extended the repayment date of the unpaid balance of the Facility to December 15, 2019. The Company has signed a term sheet with a lending institution in the U.S. to replace the Facility.

**(b) Master Credit Facility**

On August 20, 2018, the Company entered into a Revolving Guidance Facility Agreement (the "Master Facility Agreement") with a lending institution in the U.S. for a \$20,000,000 master credit facility (the "Master Facility") to finance the loan and mortgage investments made by the Company. Funds under the Master Facility are available on a project by project basis as a project loan. The Master Facility carries an interest rate of three-month LIBOR plus three percent (3.00%) per annum, with a floor rate of five percent (5.00%) per annum. The Master Facility will expire thirty-nine months from the date of the applicable project loan is advanced, unless otherwise approved by lender.

In connection with the Master Facility, the Company incurred lender and other third-party costs of \$355,504. The costs associated with the Master Facility have been deferred and are being amortized over the term of the Master Facility as interest expense using the effective-interest amortization method.

30

At September 30, 2019 and December 31, 2018, the unfunded commitments to make additional investments, for development of the lands under the finance lease arrangements, subject to builders meeting certain funding conditions were \$12,772,220 and \$2,392,126, respectively.

The Company is also committed to provide its proportionate share of additional capital to joint operations in accordance with contractual agreements.

The Company, from time to time, may be involved in various claims, legal and tax proceedings and complaints arising in the ordinary course of business. The Company is not aware of any pending or threatened proceedings that would have a material adverse effect on the financial condition or future results of the Company.

### SHAREHOLDERS' EQUITY

#### SHARES

On September 20, 2019, the Company consolidated its share capital on the basis of one post-consolidation Share for each ten pre-consolidation Shares. The consolidation was approved by the shareholders of the Company on June 17, 2019 and was subsequently approved by the TSX-V. All references to the number of shares and per share amounts have been retroactively restated to reflect the consolidation.

The following table summarizes the changes in Shares for the three and nine months ended September 30, 2019 and 2018:

31

purchased the maximum number of Shares to be acquired pursuant to the renewed NCIB, or (iii) the Company providing a notice of termination to the TSX-V.

The Prior NCIB commenced on November 14, 2017, permitted the Company to purchase up to an aggregate maximum of 425,576 Shares. The Prior NCIB concluded on November 6, 2018, being the date on which the Company has purchased the maximum number of Shares permitted to be acquired pursuant to the Prior NCIB.

During the nine months ended September 30, 2019 and 2018, the Company purchased 298,550 and 245,930 Shares, respectively, on TSX-V for \$1,250,607 and \$1,244,208, respectively.

### DIVIDENDS

On June 12, 2019, the Board declared a quarterly cash dividend of CAD\$0.05 per Share, payable on October 15, 2019, to shareholders of record as of the close of business on September 30, 2019. Dividends are recognized in the period in which they are formally declared by the Board. For the three months ended September 30, 2019, the Company recorded dividends of \$278,248 (for the three months ended September 30, 2018 – nil).

The Company pays quarterly dividends based on the Company's overall financial performance and cash flow generation. Decisions on dividend payments are made on a quarterly basis by the Board of Directors. There can be no assurance as to the amount or payment of such dividends in the future.

### SHARE-BASED PAYMENTS

#### (c) Share Option Plan

Pursuant to the Plan, the Company may grant eligible directors, officers, senior management and consultants options to purchase Shares. The exercise price of each option shall be determined by the Board and in accordance with the Plan and the policies of the TSX.V. Subject to the policies of the Exchange, the Board may determine the time during which options shall vest and the method of vesting, or that no vesting restriction shall exist, provided that no option shall be exercisable after seven years from the date on which it is granted. Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods.

On June 12, 2019, the Company granted options to its Chairman to purchase up to 20,000 common shares of the Company at a price of CAD \$5.60 per share with the expiry date of June 11, 2026. 10,000 options vested immediately, and the remaining 10,000 options shall vest in equal instalments on a quarterly basis over a six-month period.

On June 12, 2019, the Company granted options to its President and Chief Executive Officer to purchase up to 24,000 common shares of the Company at a price of CAD \$5.60 per share with the expiry date of June 11, 2026. The options shall vest in equal installments on a quarterly basis over a three-year period.

On August 23, 2018, the Company granted options to its Chairman to purchase up to 40,000 common shares of the Company at a price of CAD \$6.40 per share with the expiry date of August 24, 2025. 20,000 options vested immediately, and the remaining 20,000 options shall vest in equal instalments on a quarterly basis over a six-month period.

The fair value of the share options granted was estimated on each of the dates of grant, using the Black-Scholes option pricing model, with the following assumptions:

**(d) Deferred Share Unit Plan**

The Company has a DSU Plan to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Shares by awarding DSUs as compensation for services rendered.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

33

Effective September 30, 2019, the Board modified the DSU Plan. Employees or the directors no longer can elect to receive their annual bonus or retainer, respectively, in DSUs. The Company will no longer grant additional DSUs to employees or the directors. At the beginning of the year, the Board will determine which board members or employees will be eligible to participate in the DSU Plan and the dollar amount that can be contributed to the DSU Plan. Unless authorized by the Board, the directors and employees will continue to receive their annual retainer and bonus, respectively, in cash.

Prior to the amendment, the Board determined the amount, timing, and vesting conditions associated with each award of DSUs. Except for the Chairman, directors were obligated to contribute, on the last day of each quarter, a minimum of 50% and might elect to receive up to 100% of their annual retainer in DSUs. Employees might elect to receive up to 25% of their annual bonus in DSUs. DSUs granted pursuant to such an election were fully vested on the date of grant. In addition, when the directors elect to receive more than 50% of their fees in DSUs, the Company granted additional DSUs equal to 50% of the value of the DSUs that were over the 50% minimum received by them. When the employees elected to receive their bonus in DSUs, the Company granted additional DSUs of up to 20% of the value of DSUs granted to them. Of the additional DSUs granted by the Company to the directors, 50% vested in six months from the date of grant and 50% of the additional DSUs vested in 12 months from the date of grant. The additional DSUs granted to the employees vested 33.33% annually.

Each DSU has the same value as one Share (based on the five day volume weighted average trading price) and, in the event dividends are paid on the Shares, accrues dividend equivalents in the form of additional DSUs based on the amount of the dividend paid on a Share. Directors must retain DSUs until they leave the Board, or in the case of officers or employees, until their employment is terminated, at which time the redemption payment equal to the value of the DSUs, calculated as the volume weighted average closing price of the Shares for the last five days preceding the redemption date, net of applicable taxes are paid out.

The following table presents the changes in DSUs for the three months ended September 30, 2019 and year ended December 31, 2018:

	Number of DSUs	
	Six months ended September 30, 2019	Year ended December 31, 2018

Settled	(1,964)	-
DSUs outstanding, end of period	302,371	286,220
Number of DSUs vested	298,616	280,865

The carrying amount of the liability, included in accounts payable and accrued liabilities relating to the DSUs at September 30, 2019 and December 31, 2018 are \$1,142,686 and \$947,406, respectively.

### (e) Warrants

At September 30, 2019 and December 31, 2018, the Company has 500,000 Warrants outstanding. Each Warrant is exercisable for one Share at a price of \$8.50 per Share, with an expiry date of August 15, 2020.

### DEBT TO EQUITY RATIO

IFRS requires that the loan and mortgage syndications be included as part of the assets and an offsetting liabilities of the Company. Given that the loan and mortgage syndications have no recourse or risk to the Company, management believes that the loan and mortgage syndications should be subtracted from the Company's debt to provide a better depiction of the Company's debt to equity ratio. The significantly lower adjusted debt to equity ratio represents the Company's position with much lower leverage and risk.

Such calculation is represented in the following table provides details of the Company's adjusted debt to equity ratio as at September 30, 2019 and December 31, 2018:

	September 30, 2019	December 31, 2018
Total debt	\$ 103,476,455	\$ 96,418,465
Less: loan and mortgage syndications and unsecured note payable	(85,902,486)	(75,906,550)
Adjusted total debt	\$ 17,573,969	\$ 20,511,915
Shareholders' equity	\$ 38,868,085	\$ 38,053,026
Debt to equity <sup>(1)</sup>	2.66:1.00	2.53:1.00
Adjusted debt to equity <sup>(1)</sup>	0.45:1.00	0.54:1.00
<sup>(1)</sup> Total debt, adjusted total debt, debt to equity and adjusted debt to equity are non-IFRS Measures. See "Non-IFRS" Measures.		

As at September 30, 2019 and December 30, 2018, the adjusted debt to equity ratio was 0.45:1.00 and 0.54:1.00, respectively.

### RELATED PARTY TRANSACTIONS AND ARRANGEMENTS

At September 30, 2019 and December 31, 2018, the Chairman, indirectly through a wholly owned subsidiary, owned approximately 8.1% of the issued and outstanding Shares.

Related party transactions are measured at the exchange amount, which is the amount of consideration established and offered by related parties.

#### LOAN AND MORTGAGE INVESTMENTS

The Company had a loan investment of \$1,362,592 to a company controlled by the Chairman at an interest rate of 12% per annum. On May 2, 2018, the Company received the repayment of loan and mortgage investment in full, together with accrued interest. During the three months ended September 30, 2019 and 2018, the Company recognized interest and fees revenue of nil and nil, respectively.

#### LOAN AND MORTGAGE SYNDICATIONS

Certain of the Company's loan and mortgage investments are syndicated with other investors of the Company, which may include officers or directors of the Company. The Company ranks equally with other members of the syndicate as to payment of principal and interest. At September 30, 2019, and December 31, 2018, the loan and mortgage investments and the Debentures syndicated by officers and directors was \$667,601 and \$467,659, respectively.

#### OFFICE PREMISES

The Company sub-leased a portion of the office premises to a company controlled by the Chairman, pursuant to a lease agreement corresponding to the terms of the Company's lease. During the nine months ended September 30, 2019, and 2018, the Company received \$40,343 and \$45,490, respectively, for the occupancy and office costs.

#### SIGNIFICANT ACCOUNTING POLICIES AND CHANGES IN ACCOUNTING POLICIES

A summary of the significant accounting policies and methods of their application as those described in Note 2 to the consolidated financial statements for the year ended December 31, 2018, except for the following changes in accounting policies and disclosures and new standards adopted during the three months ended September 30, 2019, as described below. The Company's consolidated financial statements for the year ended December 31, 2018 can be found under the Company's profile at [WWW.SEDAR.COM](http://WWW.SEDAR.COM).

##### (i) Change in functional and presentation currency:

###### Functional currency

Prior to January 1, 2019, the functional currency of the Company, was the Canadian dollar ("CAD"). Per IAS 21 - The Effects of Changes in Foreign Exchange Rates ("IAS 21"), an entity's functional currency should reflect the underlying transactions, events and conditions that are relevant to the entity. Management considered primary and secondary indicators in determining functional currency including the currency that influences sales prices, labour, purchases and other costs. Other indicators including the currency in which funds from financing activities are generated and the currency in which receipts from operations are usually retained. Beginning in 2015, the Company began a gradual program of lending in certain U.S. markets and the Company's economic and currency exposure has shifted from Canada to U.S. At December 31, 2018, over 80.0% of the Company's investments are fully exposed to the USD, as well, the Company earns a significant portion of its revenue in U.S. dollars.

Based on these factors, management concluded that effective January 1, 2019, the parent company's functional currency should be the USD. The Company has accounted for the change in functional currency prospectively, as provided for under IAS 21 with no impact of this change on prior year comparative information other than in conjunction with the change in presentation currency as discussed below.

###### Presentation currency

Concurrent with the change in functional currency, on January 1, 2019, the Company changed its presentation currency from the CAD to the USD. The change in presentation currency is to better reflect the Company's business activities and to improve comparability of the Company's financial results with other publicly traded businesses in the real estate finance

36

industry. In making this change in presentation currency to USD, the Company followed the guidance in IAS 21, The Effects of Changes in Foreign Exchange Rates, and have applied the change retrospectively, as if the USD had always been the Company's presentation currency, as follows:

- for periods prior to January 1, 2019, the statements of financial position for each period presented have been translated from the CAD functional currency to the USD presentation currency at the rate of exchange prevailing at the respective financial position date with the exception of equity items which have been translated at accumulated historical rates from the Company's date of incorporation in 2007;
- for periods prior to January 1, 2019, the statements of income and comprehensive income were translated at the average exchange rates for the reporting period, or at the exchange rate prevailing at the date of the transactions;
- for periods prior to January 1, 2019, equity transactions have been translated at the exchange rate prevailing at the date of the transactions; and
- exchange differences arising in 2018 on translation from the CAD functional currency to the USD presentation currency have been recognized in "cumulative translation adjustment" as a separate component of equity.

The exchange rates used in translation were as follows:

	December 31, 2018		January 1, 2018	
At reporting date	\$	0.7332	\$	0.7955
Average rate for the period		0.7716		0.7704

In addition to the comparative financial statements, the Company has presented a third statement of financial position as at January 1, 2018 as required by IFRS

### (ii) Critical judgments and estimates:

In preparing these interim condensed consolidated financial statements, management has made judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, revenue and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2018, except as disclosed under change in functional and presentation currency, above.

### (iii) IFRS 16, Leases ("IFRS 16"):

Effective 1 January 2019, the Company adopted IFRS 16. Previously, the Company classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Company and classified operating lease payments as operating costs. Under IFRS 16, a lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease obligation representing its obligation to make lease payments. The right-of-use asset is initially measured at cost and subsequently measured at cost less accumulated depreciation and impairment losses. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease obligation adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The lease obligation is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company uses its incremental borrowing rate as the discount rate. The lease obligation

is subsequently measured at amortized cost using the effective interest rate method and is subsequently adjusted for interest and lease payments.

**RECAST OF COMPARATIVE FIGURES**

During the three months ended September 30, 2019, the Company determined that adjustments were required to certain amounts reported in the March 31, 2019 financial statements which were restated to USD to reflect the change in functional and presentation currency from CAD to USD. The following amounts previously presented in the financial statements as at and for the three months ended March 31, 2019 have been recast as at September 30, 2019: Cumulative translation adjustment as at March 31, 2019 and December 31, 2018 (as restated to USD) - (\$6,885,398), (previously (\$3,663,314)); retained earnings as at March 31, 2019 and December 31, 2018 (as restated to USD) - \$15,437,252 and \$15,140,086, respectively (previously \$12,999,365 and \$12,702,199, respectively); income taxes recoverable as at March 31, 2019 and December 31, 2018 - \$168,317 and \$130,741, respectively (previously \$236,936 and \$195,225, respectively); and deferred income taxes payable (recoverable) as at March 31, 2019 and December 31, 2018 (as restated to USD) - \$658,729 and \$753,089, respectively, (previously (\$60,960) and \$33,376, respectively).

In addition, the following restated comparative figures included in the effect of change in presentation currency described above, have been recast: realized and unrealized foreign exchange gain (loss) (as restated to USD) for the year ended December 31, 2018 - \$3,034,987 (previously (\$222,828)); income tax expense (as restated to USD) for the year ended December 31, 2018 - \$902,038 (previously \$82,110). The Company concluded that these adjustments were not material to these or any previously issued financial statements as a whole.

**USE OF ESTIMATES**

The preparation of the Company's unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the year. Actual results may differ from these estimates.

In making estimates, the Company relies on external information and observable conditions where possible, supplemented by internal analysis as required. Those estimates and judgments have been applied in a manner consistent with the prior year and there are no known trends, commitments, events or uncertainties that the Company believes will materially affect the methodology or assumptions utilized in making those estimates and judgments in these consolidated financial statements.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant are disclosed separately. Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these unaudited interim condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could also differ from those estimates under different assumptions and conditions.

Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of these unaudited interim condensed consolidated financial statements and the reported amounts of revenue and expenses during the years. Actual results could also differ from those estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

## **FINANCIAL INSTRUMENTS**

The Company, as part of its operations, carries a number of financial instruments. The Company's financial instruments consist of cash and cash equivalents, funds held in trust, interest and other receivables, the Loan Portfolio, portfolio investments, investment in associates, investment in finance lease, Convertible Note, lease obligation, loan and mortgage syndications, Credit Facilities and mortgage payable.

The fair value of interest and other receivables approximate their carrying values due to their short-term maturities.

The fair value of Loan Portfolio, investment in finance lease, Convertible Note, mortgages payable, Loan Syndications, unsecured note payable and Credit Facilities approximate their carrying value as they are short-term in nature. There is no quoted price in an active market for the Loan Portfolio or Loan Syndications. The Company makes the determinations of fair value based on its assessment of the current lending market for Loan Portfolio of same or similar terms. As a result, the fair value is based on Level 3 on the fair value hierarchy.

The Company uses various methods in estimating the fair values recognized in the consolidated financial statements. The fair value hierarchy reflects the significance of inputs used in determining the fair values.

- Level 1 - quoted prices in active markets
- Level 2 - inputs other than quoted prices in active markets or valuation techniques where significant inputs are based on observable market data; and
- Level 3 - valuation technique for which significant inputs are not based on observable market data.

The fair value of the Company's investment property, Portfolio Investments, Investment in Associates and non-controlling interest are determined by using Level 3 inputs at September 30, 2019 and December 31, 2018 and no amounts were transferred between fair value levels during the three months ended September 30, 2019 or 2018.

## **OFF BALANCE SHEET ITEMS**

As of September 30, 2019, and December 31, 2018, the Company did not have any off-balance sheet (statement of financial position) arrangements.

## **RISKS AND UNCERTAINTIES**

There are certain risks inherent in an investment in the securities of the Company and in the activities of the Company, including the following, which current and prospective holders of securities of the Company should carefully consider. If any of the following or other risks occurs, the Company's business, prospects, financial condition, financial performance and cash flows could be materially adversely impacted. In that case, the trading price of the securities of the Company could decline and investors could lose all or part of their investment in such securities. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below or other unforeseen risks.

### **MARKET RISK**

Market risk is the risk that the value of an investment will fluctuate as a result of changes in market price whether the changes are caused by factors specific to the investment or factors affecting all securities in the market.

The Company's objective of managing this risk is to minimize the volatility of earnings. The Company mitigates this risk by charging interest rates which are significantly above normal banking rates.

### **CREDIT RISK**

Credit risk is the risk of financial loss from the failure of a borrower, for any reason, to fully honour its financial or contractual obligations to the Company, primarily arising from the Company's loan and mortgage investment activities. Fluctuations in real estate values may increase the risk of default and may also reduce the net realizable value of the collateral property to the Company. Credit losses occur when a borrower fails to meet its obligations to the Company and the value realized on the sale of the underlying security deteriorates below the carrying amount of the exposure.

The Company is exposed to credit risk on all of its financial assets and its exposure is generally limited to the carrying amount on the consolidated statements of financial position.

Cash and cash equivalents are held with financial institutions that management believes are of high credit quality.

The Company mitigates the risk of credit losses on its Loan Portfolio by maintaining strict credit policies and conducting thorough investment due diligence, ensuring loans and mortgages have risk-adjusted loan to value, together with personal guarantees by the borrowers and parties related to the borrowers, reviewing and approving new loans and mortgages and continually monitoring change in value of underlying collateral.

The Company regularly reviews the Loan Portfolio and interest receivable listing for balances in arrears and follows up with clients as needed regarding payment. For individual accounts in arrears where discussion with the client has not succeeded, foreclosure proceedings commence. The amounts receivable includes accrued interest and legal and other costs related to attempts at collection. Where the loan investments are collateralized by real property and losses are recognized to the extent that recovery of the balance through sale of the underlying property is not reasonably assured.

At September 30, 2019 and December 31, 2018, one project loan investment to an entity controlled by the Defaulting Borrower totalling \$2,348,629 and \$2,792,998, respectively, including interest receivable and fees incurred on these loans totalling \$357,124 and \$357,124, respectively, is in arrears. The Company expects to receive the outstanding loan and mortgage investment balance in due course.

### **INTEREST RATE RISK**

Interest rate risk arises due to exposure to the effects of future changes in the prevailing level of interest rates. The Company is exposed to interest rate risk arising from fluctuations in interest rates primarily on its loan and mortgage investments, debentures payable, loan and mortgage syndications and mortgages payable.

The Company mitigates its exposure to this risk by entering into contracts having either fixed interest rates or interest rates pegged to prime for its loan and mortgage investments, loan and mortgage syndications, mortgages payable and asset liability matching. Such risk is further mitigated by the general short-term nature of loan and mortgage investments.

### **GENERAL BUSINESS RISKS**

The Company is subject to general business risks and to risks inherent in the commercial and residential real estate lending, including both the making of loans secured by real estate and the development and ownership of real property. Income and gains from the Company's investments may be adversely affected by:

- i. civil unrest, acts of God, including earthquakes and other natural disasters and acts of terrorism or war (which may result in uninsured losses),
- ii. changes in national or local economic conditions,
- iii. changes in real estate assessed values and taxes payable on such values and other operating expenses,
- iv. the inability of developers to sell development land,
- v. changes in demand for newly constructed residential units,
- vi. changes in real estate assessed values and taxes payable on such values and other operating expenses, or
- vii. changes in interest rates and in the availability, cost and terms of any mortgage or other development financing.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2019

43

Any of the foregoing events could impact the ability of borrowers to timely repay (if at all) loans made by the Company, negatively impact the value or viability of a development project in which the Company has invested or negatively impact the value of portfolio properties of the Company or their ability to generate positive cash flow.

In addition, the Company may be unable to identify and complete investments that fit within its investment criteria. The failure to make a sufficient number of these investments would impair the future growth of the Company.

### CURRENCY RISK

Currency risk is the risk that the fair value or future cash flows of the Company's foreign currency denominated Loan Portfolio, Loan Syndications and cash and cash equivalents will fluctuate based on changes in foreign currency exchange rates.

Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk. Consequently, the Company is subject to currency fluctuations that may impact its financial position and results. The Company manages its currency risk on Loan Portfolio by syndicating and or borrowing in the same currency.

### LIQUIDITY RISK

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to ensure, to the extent possible, that it always has sufficient liquidity to meet its liabilities when they come due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's credit worthiness.

The Company manages liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities.

If the Company is unable to continue to have access to its loans and mortgages syndications and revolving operating facility, the size of the Company's loan and mortgage investments will decrease, and the income historically generated through holding larger investments by utilizing leverage will not be earned.

Contractual obligations as at September 30, 2019 are due as follows:

	Less than 1 year	More than 1 year	Total
Accounts payable and accrued liabilities	\$ 5,883,628	\$ -	\$ 5,883,628
Construction loan payable	1,024,025	-	1,024,025
Lease obligations	42,917	171,670	214,587
Credit Facilities (face value)	6,480,180	10,287,601	16,767,781
Mortgages payable	8,363	1,019,514	1,027,877
	\$ 13,439,113	\$ 11,478,785	\$ 24,917,898

### SUBORDINATED DEBT FINANCING

Subordinated financings that are carried on by the Company would generally be considered riskier than primary financing because the Company will not have a first-ranking charge on the underlying property. When a charge on a property is in a position other than first-ranking, it is possible for the holder of a prior charge on the property to realize on the security given for the loan, in priority to and to the detriment of the Company's security interest in such property or security.

#### **DEVELOPMENT STRATEGY**

Any development projects in which the Company invests are subject to a number of risks, including, but not limited to:

- (i) construction delays or cost overruns that may increase project costs,
- (ii) financing risks,
- (iii) the failure to meet anticipated occupancy or rent levels,
- (iv) failure to meet anticipated sale levels or prices,
- (v) failure to receive required zoning, land use and other governmental permits and authorizations and/or
- (vi) changes in applicable zoning and land use laws.

#### **INVESTMENTS IN JOINT OPERATIONS**

In any joint operations in which the Company invests, the Company may not be in a position to exercise sole decision-making authority. Investments in joint operations may, under certain circumstances, involve risks not present when a third party is not involved, including the possibility that joint operations partners might become bankrupt or fail to fund their share of required capital contributions. Joint operations partners may have business interests or goals that are inconsistent with the Company's business interests or goals and may be in a position to take actions contrary to the Company's policies or objectives. Any disputes that may arise between the Company and its joint operations partners could result in litigation or arbitration that could increase the Company's expenses and distract its officers and/or directors from focusing their time and effort on the Company's business. In addition, the Company might in certain circumstances be liable for the actions of its joint operations partners.

#### **REGULATORY RISK**

The Government of Ontario has announced plans to transfer responsibility for syndicated mortgage investments from the Financial Services Commission of Ontario to the Ontario Securities Commission. In relation to the foregoing, the Canadian Securities Administrators has published for comment proposed changes to substantially harmonize the regulatory framework for syndicated mortgages in Canada. Under the proposed amendments, prospectus and registration exemptions that currently apply to syndicated mortgages in certain jurisdictions (including Ontario) would be removed. Additionally, the amendments, if adopted, would introduce revisions to the offering memorandum exemption to provide heightened disclosure for investors and, in certain circumstances, issuers would be required to deliver property appraisals prepared by an independent, qualified appraiser. The proposed amendments would also exclude syndicated mortgages from the private issuer exemption. The Company is assessing the proposed regulatory amendments and cannot predict what the final regime will look like and how it will impact on the Company's business and results.

The Government of Ontario made regulatory amendments to Ontario Regulation (O. Reg.) 188/08 Mortgage Brokerages: Standards of Practice under the Mortgage Brokerages, Lenders and Administrators Act, 2006 ("MBLAA"), effective July 1, 2018. The amendments require mortgage brokerages transacting in syndicated mortgages that do not meet the regulatory definition of a qualified syndicated mortgage ("non-qualified syndicated mortgages") to, among other things: (a) the collection and documentation, on Superintendent of the FSCO approved forms, information relating to knowing the client, including information about the financial circumstances, investment needs and objectives, risk tolerance, level of financial knowledge, investment experience and relationship with the mortgage brokerage (if any) of the prospective investor/lender; (b) the completion an assessment of whether or not the proposed non-qualified syndicated mortgage is suitable for the prospective investor/lender given the information about the investor/lender in (a) and the features and risks of the proposed syndicated mortgage investment; and (c) expanded disclosures to each prospective investor/lender regarding, for example, property appraisal and, in cases where the borrower is not an individual, the financial statements of the borrower. In addition, mortgage brokerages are required to update their policies and procedures that are designed to ensure that the mortgage brokerage and its mortgage brokers and agents comply with all the requirements established under the MBLAA to be compliant with the amended regulations to now include how the mortgage brokerage will verify that an investor/lender is eligible to invest in, or make a loan in respect of, a non-qualified syndicated mortgage.

The Company is currently in the process of updating its policies and creating internal procedures along with other market participants to adopt and implement these new requirements. These regulatory amendments are not expected to have a material impact on the Company's business.

### **DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING**

The Company is not required to certify the design and evaluation of its disclosure controls and procedures. Inherent limitations on the ability of the certifying officers to design and implement, on a cost-effective basis, disclosure controls and procedures for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

### **FUTURE OUTLOOK**

The following section includes certain forward-looking statements, including in regards of the Company's objectives and priorities. Please refer to the section titled "Caution Regarding Forward Looking Statements" on page 1 of this MD&A.

The objective of the Company is to preserve the Company's capital while earning attractive risk-adjusted returns and to create shareholder value over the long-term, through capital appreciation, and payment of dividends (from time to time as the Board considers appropriate). Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Management believes there will be significant opportunities for the Company to expand its presence in the market; however, it continues to be prudent in its approach to selection of new investments and pricing.

Yields in the real estate market in Canada have compressed over the last year to levels that are not only low from a risk adjusted return perspective but also below the cost of capital of the Company. As a result, the Company has adjusted its marketing efforts in Canada to become more reactive to deals that may present themselves for special situations through existing borrowers or existing contacts versus taking a proactive approach to generating a greater pipeline of potential transaction. Beginning in 2015, the Company began a gradual program of lending in certain U.S. markets following the same prudent lending standards it historically had employed in Canada. The U.S. market represents a logical extension of the Company's existing lending operations. As such, the Company continues to focus primarily on providing higher leveraged loans (up to 80% LTV) on development projects and land banking arrangements in the U.S. Management expects to be able to generate interest rates similar to those reflected in the current portfolio.

The Company's ability to achieve its objective is dependent on management's ability to execute on its business strategy as described while also successfully mitigating business risks as discussed in this MD&A. Further, the Company's ability to attract larger sources of lower cost capital will have a significant impact on the growth of its earnings

### **SUBSEQUENT EVENT**

On November 13, 2019, the Board declared a quarterly dividend of CAD\$0.05 per Share, payable on January 15, 2020, to shareholders of record as of the close of business on December 31, 2019.
